WASHINGTON, May 31, 1869.

FIGHT WITH INDIANS.

The following telegram has been received at the War Department:

To Adjutant General Townsend, War Department: An official report was received to-day of an engagement near Double Mountain, west of Fort Griffin, between a scouting party from the Fort and and a band of Camanches and Kiowa Indians, in which fourteen Indians were killed. I will send a detailed report by mail.

[Signed.] J. J. REYNOLDS, Bvt. Maj. Gen. Com'dg.

PERSONAL.

The President has determined to attend the ball at the Naval Academy on Friday. He will not leave Washington for West Point until June 10th.

Colonel R. M. Douglass, of the President's staff, leaves here this evening to attend the funeral of his grand-mother, Mrs. Granger, who died at Clifton Springs, New York.

Among the callers on the President this morning was Hon. A. G. Curtin, United States Minister to Russia. Mr. Curtin leaves on the 17th of June for Russia.

Hon. B. F. Wade was to-day commissioned a Director of the Union Pacific Railroad. He had an interview with the President this afternoon.

REVENUE RECEIPTS.

The receipts to-day from Internal Revenue were $250,000, for the month $20,277,796, and for the fiscal year to date, eleven months, $135,830,171.

THE PRESBYTERIANS.

The New School General Assembly.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 31, 1869.

In the New School Presbyterian Assembly, Judge Strong made a brief explanation of the composition of the General Assembly to meet in Pittsburgh in November next. It will be the same as that now sitting. Alternates could not take the place of Principals who had sat in this body, nor could an Alternate who had sat resign his seat to his Principal.

A Committee was appointed to arrange the question how vacancies occurring by death or resignation should be filled.

A resolution was passed, looking to the fostering of a German Theological Seminary at Newark, N. J.

A discussion followed on resolutions from the Old School Assembly providing for a day of prayer for the preservation of peace between the United States and Great Britain, in the course of which Rev. Dr. Sunderland expressed the opinion that if England could get a good sound drubbing from somebody, the cause of Christian civilization would be put forward a hundred years. He did not care to have this country made the instrument of Divine Providence to administer the castigation, but that it ought to come from somewhere. The subject was finally indefinitely postponed.

A special committee of three was appointed to commend the Bohemian delegates to the churches, also a committee to meet similar committees from the churches in New York on the third Thursday in October, to confer on the subject of Union, viz: Rev. Dr. Heacok, Rev. Arthur Mitchell, Mr. Hastings and Judges Strong and Haines.

Reports of standing committees, on home missions, freedmen, church erection and education were adopted.

Trustees for the church erection fund and Presbyterian house were elected, viz:

Trustees of Church Erection Fund—Rev. O. Fred. Smith, D. D., Rev. Samuel D. Burchard, for three years, and Rev. Samuel Newel, for two years, in place of Arthur Mitchell, resigned.

Trustees of Presbyterian House—J. C. Farr, Chas. S. Mertz, M. D., Rev. Daniel Masch, D. D., Rev. Wm. Lea, Rev. T. J. Shepherd, D. D.

Auditor of Church Erection Fund—Mr. Tredwell Ketchum.

After some unimportant discussion the Assembly adjourned to meet in November in Pittsburgh.

The Old School General Assembly.

In the Old School Assembly the first Sabbath in October was fixed for taking a collection to defray the expenses of delegates to Pittsburgh in November.

A protest against the plan of reunion, signed by Charles C. Conver, was read and passed over without action.

Dr. Prime, representing the Evangelical Church of Protestant countries of the world, addressed the Assembly, and resolutions were adopted sympathizing with the Conferences to be held under the auspices of that organization in New York this and next year, and also urging the employment by our ministers and people of all suitable means to resist the insiduous attempts of Roman Catholics to obtain undue influence in this country.

Considerable routine business was transacted, among which was a reaffirmation, in reply to a protest from a member of the church at Glendale, Ohio, who said such practices were common in that church, of previous action condemning the sitting posture during prayer and responses of Scripture as being liturgical.

Dr. Hornblower, Chairman of Oligarchial Assemblies, read a report in behalf of the Committee, in which was given a general status of various seminaries. The report was submitted, signed by H. G. Spaffon and J. Q. Stewart.

Exception was taken to the report of the majority of the Committee, claiming that the Trustees of the Chicago Seminary had not been legally elected and that they had disregarded the will of the Directors, to whom it said they were subservient.

A question was raised, if the report thus presented was in order.

Senator Drake said according to parliamentary usage a minority report was in order.

After the hearing of the report a motion was made by Senator Drake that the whole matter of difference be referred to a special Committee of five, who, if necessary, should proceed to Chicago to examine into the affairs of the Seminary, and that a report be made to the General Assembly to convene in Pittsburgh in November.

Much discussion took place, in which Dr. Skinner, J. B. Stewart and Dr. Hornblower took part. The two former maintained the report of the majority was a misrepresentation of the affairs connected with the Seminary. The latter attempted to justify the action of the Committee.

The minority report was accepted, and further discussion followed by Dr. Hall and others.

A motion was made to lay the motion to refer upon the table.

On division of the house, the motion was lost.

Mr. H. Bay said he thought the action of the minority was unjust, for they refused to make their complaints before the Committee, and that no censure ought to fall upon the Committee.

Rev. Mr. Pharner said the Assembly was not ready to decide the matter between the two reports, and they ought to be reconsidered.

Dr. Anderson, of New Albany, Indiana, hoped the matter would be settled amicably by agreeing to refer it to a Special Committee.

On the motion of postponement, Rev. J. H. Morrow said he was opposed to it. He said he represented the majority of the West.

Mr. Shultz spoke in opposition to postponement.

The motion was lost.

The motion of Senator Drake to refer to a Special Committee was nearly unanimously adopted.

The debate was a very spirited one, in which many of the ablest of the Assembly took part. The question involved a gift of money to the Seminary and an alleged right to control its application. Political matters also are to some extent involved.

A resolution was adopted that when the Assembly adjourns, it do so to meet in the First Presbyterian Church, Pittsburgh.

The report of the Committee on Systematic Beneficence was read, showing the receipts by all Boards during the year at $652,567, or an excess over the previous year of $40,787.

Resolutions looking to the appointment of future contributions for the cause of systematic beneficence were discussed until the adjournment for the day.

Indian Depredations in Kansas.

[By Telegraph to the Pittsburgh Gazette.]

WATERVILLE, Kansas, May 31.—Parties just in from the Republican river report that the Indians captured six buffalo hunters and killed five of them. Many settlers have gone to Lake Sibley for protection. Reports from Rose creek and White Rock state that the Indians were scouring north and west of the Republican river and on the Little Blue river, attacking small hunting parties and killing settlers remote from settlements, driving off all stock they can get. Settlers in Republican held a meeting on Saturday and are organizing to protect themselves. Several hunting parties are still out and it is feared some of them have been captured or killed.

News from Cuba.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, May 31.—Troops are in active pursuit of the fillibusters who landed in the Bay of Nipe, and have captured three of their cannon and killed Manuel Guersa, commander of the riflemen.

A heavy engagement has taken place at Puerto Padre. The insurgents are massing their forces in the vicinity of Los Tunas. A skirmish is reported near Cienfuegos between the regulars and insurgents.

Capt. Gen. Dulce's order sending numbers of political prisoners to Spain is revoked.

Damages to Crops by Storms.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, May 31.—Dispatches from Logansport, Vincinnes, Gosport and the region of the White Water Valley, Indiana, report serious injury to the crops by the recent storms. The corn will have to be replanted. Similar damages are reported from the country.

—The ceremony of decorating the graves of the Union dead in the New York city and Brooklyn cemeteries took place yesterday. The observance by the citizens was more general than last year. At Fort Hamilton the ceremonies took place at 9 A. M., and consisted of prayer, reading of President Lincoln's Gettysburg Inauguration Address by General Nelson Cross. The ceremonies at Greenwood and at the Naval Cemetery took place at 10 o'clock. The graves at Holy Cross Cemetery, at Flatbush and Evergreen Cemetery were also decorated. At 10 o'clock the principal ceremony took place at Cyprus Hill, where there are about thirty-five hundred graves of Union soldiers, many of whom died from privations at Andersonville and Libby. The several details assigned to decorate graves at other cemeteries all united at Cypress Hill. The attendance was very large and the services solemn and impressive, occupying several hours. After a dirge by the Fort Hamilton Band, an anthem was sung by the Brooklyn Choral Union, followed by prayer and reading of President Lincoln's Inaugural Address. Gen. Steward L. Woodward delivered an appropriate, patriotic and impressive oration, after which Rev. Sylvester Malone made an address, at the conclusion of which the graves were decorated, and after the closing hymn was sung the assemblage dispersed. The graves at all the cemeteries were profusely strewn with flowers, and everything passed off in the most satisfactory manner.

—At Franklin, Tenn., on Sunday, Jos. R. McGavock, was stabbed with a knife and killed by John F. De Gaffencide. Both were young men of high social position and friends till a short time before the murder. De Gaffencide had taken offence at a playful "remark made by McGavoc and would receive no apology, although one was made, but armed himself with a knife, got a horse and pursued McGavoc, who had started to his uncle's, a short distance from town. Having overtaken McGavoc, he dismounted, and although McGavoc told him he was unarmed, carried out his purpose, killed him, then rode off and escaped.

—Since 1861 there has been paid into the National Treasury, a conscience fund amounting to $80,238. The amount paid in each year is rapidly growing larger—in 1861 only two hundred and fifty dollars was paid in, while during five months of the present year over fifteen thousand dollars have been received.

Church Disestablishment Bill Passed by the British House of Commons--Addresses to American Minister Motley and His Replies Thereto--Protestant Congress at Worms--Twenty Thousand Persons Present.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, May 31.—In the House of Commons to-night Mr. Gladstone moved the third reading of the bill for the disestablishment of the Irish Church. A large number of petitions against the passage of the bill were then presented, after which James Maden Holt, member for Northeast Lancashire, made, and Lord Elks, member for Hadingshire, seconded, a motion that the bill be rejected. A long but uninteresting debate followed, terminating in the refusal of the House to accept Mr. Holt's proposition, and the passage of the bill by a vote of 361 against 247.

The result was received with uproarious cheering from the Ministerial benches. The House shortly afterwards adjourned.

LIVERPOOL, May 31.—Mr. Motley, the new Minister of the United States, received the addresses of the Chambers of Commerce at his hotel this morning, and in reply to that of the American Chamber of Commerce, he returned thanks for the welcome he had received as a representative of the United States. He said it was the earnest hope and chief wish of President Grant's administration and of the people of America to retain faithfully friendly and equitable relations with the government and the people of Great Britain. The happiness of the world, the advancement of civilization, the best hopes of humanity and the concord of all branches of the human family, more especially in that of the two leading nations, both connected by personal interest, allied by blood, addicted to commerce and the cultivation of the arts of peace. Mr. Motley concluded as follows: My most strenuous efforts shall be devoted to further a good understanding on the basis of enduring friendship and kindly relations, in accordance with the great principles of justice and honor, which are the immutable and only safe and unerring guides in the conduct of nations.

In answer to the address of the Liverpool Chamber of Commerce, Mr. Motley expressed his high appreciation of the friendly sentiments toward America, and assured them that during his period of office he should endeavor to promote good understanding between two nations of the same race, bound by a unity of interest hitherto unequally felt, and the highest purposes of both were fulfilled by faithful friendship. The American people and the American Government desired relations with Great Britain on the basis of justice. It was the warmest wish of America to extend commerce, but the question of free trade was beyond the limits of his functions, its settlement being vested by the people in Congress.

GERMANY.

WORMS, May 31.—The Protestant Congress, which assembled here to-day, was attended by twenty thousand persons, including representatives from all the States of Germany. The Congress, by a unanimous vote, resolved against the Papal exhortation to return to the Roman Church and in condemnation of the encyclical letter and syllabus. The idea of the formation of a united German Church is mooted.

AUSTRIA.

VIENNA, May 31.—It is said Ismael Pasha's tour, which will extend throughout Europe, is for the purpose of determining the question whether the Suez Canal is to be considered a subject for the neutrality of all nations and for all time.

MARINE NEWS.

Additional Markets by Telegraph.

CHICAGO, May 31.—At open board in the afternoon there was very little done in the grain markets and prices without important change. No. 2 spring wheat is selling at $1,15½@1,16 deliverable immediately. Corn inactive, dealers awaiting the results of the corner case now before the Committee of the Board of Trade. Other grains are also neglected. Provisions dull. Lake Freights quiet. Beef Cattle in rather light supply but at unchanged prices; fairly active to the extent of offerings; receipts 759 head; sales 433 head at a range of $5@7,40, according to quality. Hogs moderately active; receipts comparatively light and a fair demand existed; prices firm and steady at Saturday's quotations; fresh receipts 1,684 head; sales 2,782 head.

ALBANY, May 31.—The demand for beeves was very fair to-day. Between 2,000 and 6,000 head changed hands, at 7@7¾c for light to ordinary Ohio, Kentucky and Indiana, and 8@8¾c for good to extra. The supply is equal to the demand. Sheep are rather slow of sale at 5¼@7¼. Hogs lower; sales of 1,000 head at 9¼@9½c for weight.

CITY AND SUBURBAN.

The Storm in Allegheny.

The heavy tempest of yesterday afternoon, while resulting in renovating thoroughfares, reviving verdure and favoring us with an exceedingly refreshing atmosphere, during its continuance was rather disagreeable. In Allegheny, especially, it seems to have been noticeably severe, and was accompanied with manifestations of power of a somewhat unpleasant nature. On North avenue, near Resaca street, a new brick house was being erected for Mr. J. W. Arrott. The workmen had just finished the gable end of the structure when the storm came, and in the twinkling of an eye destroyed the labor of many days, tearing down about half the wall and scattering the bricks and mortar in all directions. Fortunately there was no person in the place at the time, and we have no personal injuries to record. The loss will not be very heavy.

An awning attached to Lutz & Rankin's drug store, on Western avenue, was blown through one of the large windows of the store, entailing a considerable loss upon the proprietors. The cars on the street railways were stopped from running, the drivers and conductors finding it necessary to seek protection from the element in the interior of their vehicles. The number of trees blown down it would be useless to attempt to record, as well as the pavements washed away by the floods.

Perhaps, the most remarkable instance of its power was found in the stoppage of the trains on the Western Pennsylvania Railroad. They were all compelled to lay to until the storm passed, and arrived in the city considerably behind time. A large sign board on Ross' grocery establishment, Federal street, Allegheny, was blown off and fell into the street. Indeed, sign boards, awnings, and trees, seemed to be its especial sport, and were blown about with a reckless disregard of everything. The destruction to property throughout the city was considerable, but so far as we could ascertain no injuries were received by persons, although a number were on the street during the tempest.

Soldiers' Orphans on Decoration Day.

EDITORS GAZETTE: Though the papers have been full of the proceedings on Saturday last, it seems to me that there ought to be a word said in regard to one of the most interesting sights in the procession, to-wit: the soldiers' orphans from our own city. Through the persevering exertions of Col. Barr of the *Post* and the co-operation of the editors of the various papers and many of our benevolent and active ladies, these fatherless children were present and made a marked feature in the procession. How few of them, as they rode cheerily and gladly along, enjoying the pageant, were able to appreciate the terrible loss this day commemorated to every one of them. The little girls, from their comfortable home which overlooks the first dam on the Monongahela, all dressed in white with their cheerful ribbons and pretty faces, deservedly attracted the attention of any observer, as they went through the streets, and as they stood at the Cemetery, sang in a most touching manner Colonel Nevin's beautiful song, written and set to music by himself for this occasion. We believe these children were the only part of the procession that remembered there were heroes graves at St. Mary's Cemetery, adjoining the Allegheny Cemetery—or at least they were the only ones that we noticed going to pay their tribute of respect to the brave men whose remains rest there. I blame none, and yet there is always danger that while officers are always remembered—the "unnamed denizens" who went "to stop bullets at half a dollar a day" are too often forgotten. Even in this land of boasted Democracy we too often forget the rank and file. Do I not speak the feelings of many a heart when I say that torn and tattered, soiled and battle-stained flag carried in the procession brought tears in my eyes. What a story of suffering, and of heroic endurance does it tell?

OBSERVER.

Fatal Accident—Lady Killed by Lightning.

During the brief thunder storm which raged in this locality, about three o'clock yesterday, a most distressing accident occurred in the Sixth ward, resulting in the instant death of Mrs. Mary Tustan, an estimable lady residing at No. 350 Fifth avenue. While the storm was raging Mrs. T. started up stairs to put down a window in the second story, and it is presumed that while in the act of lowering the window she was struck by lightning and instantly killed, as one of her daughters, not knowing that her mother had gone up stairs, went up to lower the window, when she discovered her lying on the floor, apparently lifeless, and her clothes on fire.

The cries of the daughter were heard by the neighbors and persons passing, a number of whom rushed in the house to ascertain what was the matter, and found the deceased lying as stated. The flames which had communicated to some articles in the room were immediately extinguished by those who had gone in, though in the mean time an alarm of fire had been sounded from box 53, to which the fire department responded, but were not called into service. The deceased was about forty-five years of age and was the mother of six children, most of whom are grown up. Two physicians were summoned immediately after the occurrence, but on the arrival at the house, life was extinct, and from the appearance of the corpse, it was presumed that death had ensued almost instantly.

Normal School Committee.

The Committee appointed at the May Convention of School Directors to consider the matter of establishment of a State Normal School in the district composed of Allegheny, Beaver and Butler counties, met yesterday at Curry's Institute, and organized by the selection of Felix C. Negley, as Chairman, and A. T. Douthett, as Secretary. A resolution was adopted instructing the Chairman to notify the School Superintendents of Beaver and Butler counties of the organization of the committee, and to request them to appoint similar committees, with a view to conference on the subject of the Normal School. After which the committee adjourned to meet at the same place on Monday, June 14th.

THE COURTS.

District Court—Judges Hampton and Kirkpatrick.

MONDAY, May 31.—Fredrick Beader vs. Morrison, Coegler & Co., action to recover for work and labor done. The jury found for the plaintiff in the sum of $161 50, subject to the opinion of the Court on question of law reserved.

At the conclusion of the above case, Court adjourned till ten o'clock this morning.

TRIAL LIST FOR TO-DAY.

47. Schmidt & Co. vs. Boehm.
52. Monongahela Turnpike Company vs. McClaren.
59. Connor et al. vs. C. & P. R. R. Co.
62. Cooper & Willis exr's use vs. Knap.
88. Faverty vs. Bender & Co.
100. Taylor vs. Reed.
101. Oakland Ry. Co. vs. McDevitt's Administratrix.
113. Honegger & Co. vs. Graham & Bro. garnishee.

Court of Common Pleas—Judges Sterritt, Mellon and Stowe.

MONDAY, May 31.—In this Court the argument list was taken up yesterday morning. Its consideration will be continued during the present week, and there will therefore be no jury trials during that time.

United States Courts—Judge McCandless.

MONDAY, May 31.—In the Circuit Court the jurors were discharged.

In the District Court the jurors were excused from further attendance until Monday, June 7th. At that time the cases in which the Government is a party will be taken up and disposed of, but all the other cases will be continued.

Amusements.

OPERA HOUSE.—Maffit and Bartholomew's comic pantomime troup from Boston, numbering twenty-five artists, appeared in an initial performance at the Opera House last evening. The first presentation was a success in every respect. They will appear again to-night.

PITTSBURGH THEATRE.—Ixion will be presented for the last time at the Pittsburgh Theatre to-night. Those who have not seen this capital burlesque should remember to-night.

FAIR AND FESTIVAL.—This evening a fair and festival for the benefit of the Seventh U. P. Church, will be commenced in the church at half past seven o'clock. It will continue every afternoon and evening during the week. The arrangements have been on the most liberal scale, and we hope the efforts of the fair managers will be amply rewarded.

THE MUSEUM.—The Museum continues to hold its place among the first class entertainments of the city. Major Burnell is constantly on the alert for fresh attractions, and the result of his vigilance and enterprise is exhibited in a marked manner at his establishment. Enterprise should always be rewarded, and we are glad to see that in this case it is receiving proper support.

Street Crossings.

The street authorities of Allegheny City are pursuing this year, as they did last, the liberal and wise policy of providing foot crossings at the intersection of her streets. We notice preparations for a number of additional crossings over the streets that cross Federal street. We deem the suggestion opportune at this time that these last named crossings and all others on Federal street should be of about double the ordinary breadth. On all such thoroughfares as Federal street these necessary provisions for the convenience and comfort of our citizens should be made in order to answer fully their true object, wide enough for two persons abreast going in opposite directions to meet and pass without either having to step off into the mud. We hope the Street Committee will see to this, and by an example of wide pavements at Allegheny's chief street. The customary narrow foot strips may do well on the obscure and less frequented streets, but not so with Federal, Wood, Fifth, St. Clair and other great thoroughfares.

For Assembly.

TO THE EDITORS OF THE PITTSBURGH GAZETTE: At this time, when every intelligent voter of the Republican party is casting a glance over the names of the different candidates presented for political preferment, we, as an adviser of honest men, have not been able to see one that, for sterling integrity and moral honesty, will surpass that of Col. William Espy, of Scott township, whose name appears in your columns as a candidate for the Legislature. An old, staunch Republican, an industrious and intelligent farmer, having all the qualifications for a first class representative, we take pleasure in calling the attention of the delegates to the legislative convention to his claims for political preferment, and feel confident that should his name go before the people for their vote at the October election, such a vote would be given to a ticket composed of such men as to fully satisfy any intelligent voter that the people only want to have an opportunity to exemplify to the community at large, that it is honest men that they delight to honor.

JUSTICE.

Distressing Affair--Child Scalded.

Yesterday afternoon a grandchild of Jas. Neely, proprietor of a hotel on Federal street, Allegheny, was so dreadfully scalded that fears are entertained of its recovery. The little victim, aged about two years, was sitting on the steps at the kitchen door of the house, when its grandmother, not knowing of its whereabouts, threw out a large pailful of hot water, which almost deluged it. The lady immediately, but too late for prevention, saw the scalded child, and after bringing it into the house summoned a physician. Dr. Dickson arrived in a short time and administered the usual remedies, but from the first gave the friends no hope of its recovery. It was still living last evening in great agony, which, however, was thought, would terminate before morning in death. The affair is one of the most distressing character, but, under the circumstances, could not have been prevented.

GAY LITTLE DANDELION.

Gay little Dandelion
Lights up the meads,
Swings on her slender foot,
Telleth her beads.
Lists to the robin's note
Poured from above;
Wise little Dandelion
Asks not for love.

Pale little Dandelion
In her white shroud,
Heareth the angel breeze
Call from the cloud.
Tiny plumes flutt'ring
Make no delay;
Little winged Dandelion
Soareth away.

HON. A. K. MCCLURE has been lecturing on the wonders of the Great West in Pottsville.

ON Friday last a German emigrant was robbed of 4,000 francs between Mifflin and Altoona.

DR. PLUMMER, formerly of the Allegheny Theological Seminary, preached in Pottsville last Sunday.

Two citizens of Mount Joy, one a hotel keeper and the other a weaver, have absconded to elude their creditors. The sapient *Herald*, of that place, says "high life ruined them."

WELLSBORO cows graze at large in the public square just as if they were in Allegheny. Pittsburgh cows are better bred; and we never yet saw one grazing in the Second Avenue parks.

THE bridge over Ridley creek, Delaware Co., fell on Monday afternoon last, while a drove of fifty cattle was passing over it, precipitating them into the water and seriously injuring some of them.

MRS. SHEBAN, aged 102 years, while attempting to cross the railroad at Johnstown, on Saturday week, was struck by a passing locomotive and so severely injured that she died shortly afterward.

MR. L. REYNOLDS, of Upper Chichester, had between twenty and thirty sheep killed by dogs, on Monday night last. This is the second attack by worthless curs upon the flock of Mr. R., within ten days.

MRS. SWISSHELM and her daughter are now living at Diamondville, Indiana county, among the pines, where the invigorating atmosphere will, it is to be hoped, prove beneficial to the health of both ladies.

ON Friday, Chief Burgess Hykes, of Shippensburg, fired three balls from a pistol into a man named Robert Matteer, who was seriously, perhaps fatally wounded. The Chief Burgess is a prisoner.

A FEW days since our young friend Cyrus C., son of Rev. Cyrus Black, a blind boy, received through the express, a beautifully bound Episcopal prayer book, printed in raised letters, upon the fly-leaf of which is written:

Not long ago Hon. G. V. Lawrence presented Cyrus with an elegant copy of the New Testament for the blind, with the complements of several members of Congress who had taken an interest in the young man.—*Monongahela Republican.*

"TO CYRUS C. BLACK, of Monongahela City, Pa., in the Diocese of Pittsburgh. A Gift of Love, from his Bishop, John B. Kerfoot. Pittsburgh, May 13th, 1869. A memento of my Young Brother's Confirmation July 23, 1867. St. John 9: 34, 36, 37; 38 verses."

MEN are actively engaged just now in putting up the Gettysburg Monument, and it is expected that it will be thoroughly completed by the first of July, with the exception of two of the statues which have been delayed and may not arrive in time, although now on their way from Italy.

JAS. TAYLOR, a resident of North Beaver township, Lawrence county, left his home about the 14th of April, since which time he has not been heard from. He is a small man, slim, straight, dark complexion, black whiskers, aged about forty-five or fifty years. He has not been shaved for a year. He carried a cane and bears evidence of insanity.—*Lawrence Journal.*

THE Chester *Republican* says: The upper floor of the porch of the dwelling of George McCracken of Aston, on which about thirty people were assembled, gave way, on Thursday of last week, just previous to the departure of a funeral from the house. Several persons were considerably injured. The accident caused much excitement among the large assemblage present.

THE Montrose *Republican* says the lifeless body of Mr. George Rose was found horribly mangled in the gearing of the machinery in the grist mill at Brackneyville, on Saturday, May 15th. He was employed in the mill, and it is supposed that while oiling the machinery his clothing accidently became entangled in the gearing, thereby causing his death. He was twenty-three years of age; a single man, we believe.

ON Wednesday afternoon of last week a little boy named Reed, aged about eight, strayed away from his home in South New Castle. Failing to return at nightfall, his family became alarmed and instituted a search for him. Thursday morning came without tidings of the missing one, and those engaged in the search commenced to drag the canal. About ten o'clock on Thursday afternoon the body was found in the canal, between the acqueduct and the second lock.

A MAN-EATING SQUIRREL.—On Wednesday of last week, a most singular occurrence took place at the house of Cooper Stubbs, who lives near Peachbottom, in Fulton township. Mr. Stubbs was from home and his wife was engaged about her housework while their little child, some five or six years old, was playing about the room. Suddenly Mrs. Stubbs heard the child give a startling scream, and looking around beheld to her astonishment, a grey squirrel, which had entered the room unobserved, perched upon the child's back, biting its neck and shoulder in a most fearful manner. Mrs. Stubbs seized the savage intruder with her hands and relieved the child, but "bunny" then turned his attention to her, and before he could be secured, had bitten her repeatedly. A brother of Mr. Stubbs who was about the premises, now came to the rescue, and succeeded in capturing the squirrel, but not before he had been somewhat damaged in the encounter. The wounds inflicted on the mother and child were not serious, but painful in the extreme, and the little fellow, who suffered most, was literally covered with blood. After the animal was secured he again exhibited a disposition to bite, when capital punishment was promptly inflicted upon him. The singular part of the affair is that a few days before, a squirrel, supposed to be the same one, entered a house a short distance from Mr. Stubbs' and bit one of the occupants, after which it escaped.

OHIO.

SAMUEL WRIGHT, of Greene county, was accidentally shot last Tuesday evening by a friend who carelessly handled a shot gun.

A MR. WASKEY, last week, shot a golden eagle near Springfield. The noble bird, with his wings spread, measured six feet eight inches from tip to tip.

MRS. FOWLER, who was lately imprisoned in the Shelby county jail, charged with the murder of her husband, hung herself a few nights since, and is beyond the reach of human retribution.

JOHN BLACK, ten years old, was drowned in the Miami, near Beaver Creek Station, on Saturday evening, while trying to save his little brother from the same fate. His noble effort was successful, but he perished in his brother's stead.

FRIDAY afternoon, about six o'clock, Dr. Ritty, an old resident of Miami City, near Dayton, Ohio, committed suicide by shooting himself through the heart with a pistol, during a fit of insanity caused by illness. He was over seventy years of age, and had a large family. He was well known throughout the Ohio Valley.

THE Belmont *Chronicle* says: William P. Henderson, of Wheeling township, died on Sabbath last, from the effects of injuries received at Sloan's mill, Colerain township. About the 7th day of this month, while engaged in the saw mill the log carriage caught his foot, tearing the heel off, and ten days thereafter he died of lock jaw.

A BRAKESMAN named Cory, whose home was in Sydney, while uncoupling a train of cars from the tender of the engine, while they were in motion, and attempting to jump on the tender afterwards, missed his footing and fell before the moving train, and nine cars passed over his body, horribly mangling him. It was his first trip, having but just obtained the position.—*Dayton Index.*

LAST Monday evening a man was found hanging by the neck in an old house belonging to Mr. Edward Pumphery, about a mile south of Salineville, near the Cleveland and Pittsburgh Railroad. When found he was quite dead, and had the appearance of having been hanging for some hours. He had on a black hat, black coat and blue pantaloons, but no papers or memoranda were found upon his person showing his name or residence. He is supposed to have been a peddler, as a peddler answering to this description was seen in the neighborhood a day or two before, but no trace of his goods has yet been found. Some circumstances tend to the supposition that the unfortunate man committed suicide, while the absence of his goods and valuables would indicate that he was the victim of foul play.—*Buckeye State.*

THE Akron *Beacon* says: On the evening of May 8th, a boy about twelve years of age, named Frank Shook, living with Mr. Uriah Kreightbaum, in Lake township, came to his death under the following circumstances: After supper he took the place of the hired man in rolling a piece of ground preparatory to planting corn, with instructions to ride on the horse in the performance of the work. As he did not come in, Mr. K. went to the field about dark to see what was the matter, when he found him under the roller quite dead. It seemed that he had rigged a temporary seat upon the frame of the roller, upon which he had attempted to ride, instead of upon the horse, as he had been instructed to do, and had slipped from his seat in front of the roller, which in consequence of having the lines wrapped around his waist, stopped when the roller was directly upon his head, thus smothering him to death.

THE Fremont *Journal* says: On Saturday last, while the workmen were engaged removing the dirt from the cellars of the new block of Hermon and Foster, they came upon the skeleton of a man, who it would seem was buried in a sitting posture, for though the legs were extended, the arms, ribs, and skull all lay in a pile. They were carefully removed for burial. But how came the man there, has become an interesting inquiry, and many remember incidents long unthought of, which would lead to the conclusion, that a foul crime was committed in the early days of our settlement. One aged person remembers that a "mysterious disappearance" occurred years ago, and that although the person supposed to be most interested in the matter was arrested, nothing but vague suspicions and circumstantial inferences were elicited. Another remembers that a gentleman supposed to have considerable money, came west to purchase land, many years ago, but never returned to his family, who, after a diligent search and due inquiry, traced him as far as Fremont, but there the clue ended.

THE statistics of divorce in Connecticut are startling. During last year the divorces numbered 478, or *more than one-tenth of the number of marriages.* President Wollsey, of Yale College, has lately been calling attention to this subject in a series of able articles in the *New Englander;* and the new Governor of Connecticut has recommended to the Legislature a modification of the existing divorce laws—the provisions of which are so lax that there is hardly any application for divorce which the judges could legally refuse. The Norwich *Bulletin* speaks forcibly on the question, saying:

"It is a worse admission of rottenness and corruption than appears upon its face. All the marriages celebrated in the State during the year are included in the total of 4,734. A large proportion of these are marriages between foreigners, communicants of the Roman Catholic Church, who, except, in very rare cases, never trouble the Courts. The twenty-five unhappy couples whose names adorned the Superior Court docket for this county at its last term, are, without exception, native citizens. Add to this the number who are practically divorced, but who from family or other considerations neglect to obtain a legal separation, and the extent of the evil will be made apparent."

THE Commissioner of Internal Revenue has decided that farmers who have their grain manufactured into flour, and then sell the flour in any manner, must pay a license to the Government.

WEST VIRGINIA.

A ROLLING MILL is to be built at Moundsville.

THE West Virginia University, at Morgantown, has a corps of eight professors.

ON Wednesday night Fisk and Clark's store, at Charleston, was broken open and robbed of a quantity of merchandise, and $25 in money.

MR. A. RIGGS, living about six miles from Buckhannon, has sold his farm to a Company for $13,000. It is rumored a rich vein of silver was discovered in the land, which has been thoroughly tested, and no doubt as to its genuine quality exists.

THE new Patterson Well at Burning Springs, located on the bluff, struck a fine show of oil, yesterday, at 464 feet. A foot crevice was struck and pure oil was sand-pumped out. Mr. Patterson will test it, but thinks he is hardly deep enough yet for a big well.—*Parkersburg Times.*

THE Charleston *Journal* says on Wednesday night last, Geo. Cox, a notorious character in this section of the State, and Robert Burford, (colored) escaped from the jail of this county. Sheriff Sentz offers $100 reward for the arrest of the individuals named.

ON Sunday last, Mr. Jacob Blosser, living about five miles from town, was walking out on his place with his family, when coming to a small dead tree, he put his hand against it and gave a push to see whether the roots were sound or not, when it broke off eight or ten feet from the ground and fell upon his wife's head and shoulders, injuring her very severely. *Morganstown Post.*

Lease of the Fort Wayne Railroad.

The New York *Tribune* of the 28th says:

The lease of the Fort Wayne Road to the Pennsylvania Central Road, was formally ratified to-day at Philadelphia by the Directors of both roads. The Directors of the Pennsylvania Central acted under instructions, but the Fort Wayne Directors will take a vote of the stockholders before the matter is finally settled. This, however, is a matter of form, as the vote will be almost unanimous in favor of the lease. The terms are as follows: The Fort Wayne Road receives 12 per cent. upon the present capital stock of the company, free of Government tax, payable quarterly, the Pennsylvania Central Road guaranteeing the bonds of the company, keeping the road and its equipments in repair. If the net profits of the Fort Wayne Road shall exceed $1,380,000 above the interest and taxes, the excess shall be invested in the permanent improvement of the road, until at least $5,000,000 have been thus invested. The lease is perpetual, and the stockholders of the Fort Wayne Road now have a security guaranteed by the wealthiest corporation in this country, and beyond the contingencies of Wall street manipulations. The Directors of the Fort Wayne Road have discussed the subject of increasing their stock, and have about decided upon making a scrip dividend of 7½ per cent. which would make exactly 7 per cent. upon the increased capital. The lease goes into effect upon the first of July, and the Fort Wayne road have their earnings for the half year, as well as the money to be received from the sale of supplies now on hand. The surplus cash will be divided and will probably amount to 10 per cent., although it cannot of course now be definitely stated. The stock of the Fort Wayne will now disappear from Wall street, and be held by estates as an investment, being a perpetual 7 per cent. security free of Government tax. It will supply a want that has always been felt by executors and trustees of estates. A meeting of the Directors of the Fort Wayne road will be held on Saturday to decide as to the scrip dividend.

Worth, the Man Milliner.

It would not be right to say anything against Mr. Worth, for he is the prince of industrials in his way. His establishment is a curiosity; at least that is what people generally say. There is certainly none other like it. It is curious the evening of a fancy dress ball at the Tuileries to see the jam of crested carriages before his door. It is curious to see ladies as deeply crested as their carriages take tickets at the door, so as to be admitted in turn to the presence of the great man inside. It is curious to witness their assault on the lunch set out for them in the waiting room, and which suggests that perhaps they do not all penetrate farther into the temple of fashion. Once inside, it is something more than curious to witness what takes place. The artist a good-looking man of forty, with black hair and pale face, dressed loosely in a black dress suit, and with white cravat—a man who speaks all languages, and does not know what country he belongs to, although he sometimes forgets himself and says he is an Englishman—stands in the middle of the floor, and with his eye on the lady customer examines her as he would a horse he was going to buy. He makes a female assistant turn her around, trot her up and down, sit down, stand up, and finally he issues his fiat, from which there is no appeal, and the customer must take the dress, the cut and the price he dictates. "That or nothing Madam; in anything else both you and I would be ruined!" Then, when the costume is finished, they must return with it on, to see whether it does not need a touch here and there before its advent in the world. Mr. Worth goes through all this process with such decorum and with such an evident eye to art, that the fashionable world, from the Empress down, declares that in fashion there is but one god and Worth is his prophet.—*Paris Correspondence New York Times.*

Ohio State Sunday School Convention.

The Annual Convention of the Ohio State Sunday School Union will be held on the 2d and 3d of June, in the city of Steubenville, and efforts have been made by the friends of the cause to make it the most interesting and profitable convention of the kind ever held in the State. Ample arrangements have been made by the citizens of Steubenville to entertain generously all who may attend, and half-fare arrangements have been made with the different railroads, so that delegates, by paying full fare going, will be returned free by presenting the certificate of the Secretary of the Convention. Questions vital to the interests of Sunday-schools, will be discussed.

THE Greenville *Argus* say that the work on the Bear Creek Railroad is progressing rapidly. It is expected that it will be completed before the first of September.

DR. WHITTIER
CONTINUES TO TREAT ALL private diseases. Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated Vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa.

ALLEGHENY CATTLE MARKET.

OFFICE OF PITTSBURGH GAZETTE, MONDAY, May 31, 1869.

CATTLE.

The supply of Cattle, although considerably below that of last week, was, nevertheless, fully up to the demand, and it is probable that two or three car loads would be left over unsold. Compared with last week, prices have undergone no quotable change, though the market was very tame, and devoid of that bouyancy and activity that usually prevails when the supply is a little short; butchers expected to buy at a slight reduction this week, but in this they were disappointed, as the supply was too light to admit of a reduction, and drovers, like other men, generally make the best of an advantage when it is in their power—they never put prices down as long as they can help it. As was the case last week, nearly all of the Cattle on sale were from Chicago; the arrivals by rail were 35 cars from Chicago; 2 from Cincinnati, and there was at least one car load driven in, making an aggregate of 38 cars, or about seven hundred head.

As will be seen by reference to the report of sales, the very best fat steers sold at 8@8¼; good to medium 7@7¼. Stock steers are in steady demand, at 5½@6¼, as to quality and condition.

We are cognizant of three of the regular dealers that had no stock on sale, viz: Carr & McAllister, Hedges & Taylor, and Smith & Blue.

Peter Hartman 36 head Chicago steers, 7,30@8.

L. & J. Shamberg 63 head Chicago steers, at 5½@8¼.

L. Rothchilds 28 head Chicago steers, at 7¼@7¾.

E. Katz 18 head fair to good Chicago steers, at 6¾@7½.

Jacob Needy 32 head Chicago steers, at 7¼@8¼.

M. Verner 32 head Chicago steers, at 7½@8¼.

Haas & Kraus 56 head Chicago steers, at 6@7¾.

Keefer & Rothchilds 32 head good to prime Chicago steers, at 7@8.

Jos. Myers 30 head stock steers.

Hazlewood & Blackstock 61 head Chicago steers, at 7¼@8¼.

Greenwald & Kahn 70 head Chicago steers, at 7½@8¼ for fat cattle.

Zeigler & Lowensteine 36 head Chicago steers, at 7½@8.

S. Marks & Bro. 76 head Chicago steers, at 7½@8.

Traurman & Lobman 79 head Chicago steers, at 7@8.

Holmes, Lafferty & Co. 75 head of mixed stock, at 5¾@8.

SHEEP AND LAMBS.

The supply, although by no means large, was nevertheless pretty well up to the demand, while compared with last week prices have undergone no important change. Prime to extra fat Sheep sold at 5¾@6¼ cts per pound and medium to good at 5@5½. Lambs brought from $2 to $4 50 per head. The whole number of Sheep and Lambs on sale aggregated fully 900 head.

Live Stock Markets.

NEW YORK, May 31.—With a total of 6,013 cattle for the week, there is very little change either in demand or prices. The market has been unusually steady for a week, and to-day we have 3,950 beeves on sale, all of them fresh arrivals. The demand was moderately active and yards cleared of stock at 14 to 16c for 9-10 of the cattle. A small number of the best reached 16½ cents. Prices are easier to-day than last Monday. The quality was pretty good but not up to the standard of last week. 5,230 cattle came from Illinois, 300 from Missouri, 340 from Iowa, and the rest scattering; sales of 75 head good 7 cwt. at 15c; the Alexanders had 624 head Illinois steers, 7¼ cwt., sold at 14½ to 16c; 57 head fat Texans, for Platt & Heath, 7 cwt. averaging $104, being fine; a car of 7¼ cwt. Kentucky cattle brought $116; a car of 6½ cwt. Michigan steers brought 14½c. Sheep are slow, with receipts of 19,700 head for the week and 6,600 head for today, only about half of which are likely to sell; prices are firm and even lower than on Saturday; they ranged from 4¼ to 5¼c for thin, to 6½@5c for fair to prime, with choice lots at 7¼c, all sheared lambs selling at 12 to 14c; a lot of 77 head of 53 pounds brought 13c and 140 head of 55 pounds at 14c a car. Ohio sheep of 79 pounds sold at 6c; a car of 85 pounds at 7c; a car thin of 73 pounds at 5½c; a car prime of 86 pounds at 7½c. Hogs steady; total for week 26,600 head: on sale to-day 61 cars; live ranged from 9 to 9½c with dressed at 11½c; one car live of 220 pounds brought 9½c; one car of 193 pounds, $9,31¼ per cwt.

CHICAGO, May 31.—Cattle in fair local and shipping requisition; sales at $5 for stockers, $6@6,70 for fair to medium, and $7@7,40 for good to choice steers. Hogs firm and fairly active; sales at $8@8,50 for stockers, $8,45@8,60 for fair to medium, and $8,75@9 for good to choice shipping lots.

RIVER NEWS.

The river was rising slowly last evening with seven feet three inches in the channel by the Monongahela marks. The Allegheny was reported rising at its head-waters yesterday, and we look for a rise of some magnitude in this stream, and as the recent rains appear to have been general, it is probable that there will be a swell in the Monongahela also. The weather continues cloudy, warm and unsettled, with frequent heavy showers.

Business, was a little more active at the landing yesterday though by no means brisk, and there is plenty of room for improvement. The Glendale and Armadillo both received considerable freight, and the latter has over 100 tons of iron engaged. New Orleans freights are very scarce, as the season is about over for making shipments to that point.

We were visited with quite a storm yesterday afternoon; for a time the lightning was very sharp, and the rain descended in torrents.

The Lorena arrived from St. Louis on Sunday evening. She encountered a very severe storm at Steubenville on Saturday night about eight o'clock. She had just backed out from the landing, but Capt Shurman saw it coming and immediately run in and made fast and remained there until it abated.

The Julia No. 2 arrived from Zanesville and will depart again to-day. The New State departed for Wheeling as usual.

The Kate Putnam, Capt. G. W. Reed, is filling up steadily for Cincinnati and Louisville and will be the first boat out for these points.

The new steamer Matamoras No. 2. Capt. Dalzell, will positively depart for New Orleans to-day, and passengers and shippers should bear this in mind.

The Argosy from St. Louis is due today, and the Mary Davage and barges may be expected in about the latter part of the week.

We see it stated that Capt. John Woodburn is about to contract for three new boats for the Arkansas River. He will probably be here within a few days, as he always does his boat building at this place.

Capt. Stockdale was at St. Louis on Friday last, and proposes as soon as the Nick Wall arrives there to repair and freight her for another mountain trip.

The towboats Whale, with 100,000 and the V. F. Wilson, with 125,000 bushels, if they did not get off last night will depart for Cincinnati to-day.

The Glendale, Capt. Hale, with the veteran Capt James Mellon in the office will positively depart for St. Louis today and passengers and shippers should bear this in mind.

The following named towboats were in port last evening: Whale, V. F. Wilson, Eagle, Collier, Arrow, Star, Panther, N. J. Bigley, Little Alps, J. S. Neal, Diamond, Lake Erie No. 3, Fearless, Warner, Baltic and Dart.

REPUBLICAN COUNTY CONVENTION.

The Republican voters of Allegheny county are requested to meet at the usual places for holding elections in the several wards, boroughs and townships, on

SATURDAY, MAY 29th, 1869.

And elect delegates from each election district to each of the three following Conventions, viz:

Two delegates from each to the COUNTY CONVENTION, for the purpose of nominating candidates for Sheriff, Recorder, Register, Treasurer, Clerk of the Court of Quarter Sessions, Clerk of the Orphans' Court and Commissioner.

Two other delegates from each to the LEGISLATIVE CONVENTION, for the purpose of nominating one candidate for State Senator, for one year, to fill the unexpired term of Russell Errett, resigned, and six candidates for Assembly. And

Two other delegates from each to the JUDICIAL CONVENTION, to nominate one candidate for Judge of the District Court, and one candidate for Judge of the Court of Common Pleas, and elect eight delegates to represent the county in the Republican State Convention.

These Conventions will severally meet, in the city of Pittsburgh, on

TUESDAY, JUNE 1, 1869,

At 11 o'clock A. M., at the following places:

The COUNTY CONVENTION will meet at the COURT HOUSE.

The LEGISLATIVE CONVENTION will meet at CITY HALL, on Market street. And

The JUDICIAL CONVENTION will meet in MASONIC HALL, on Fifth avenue, between Wood and Smithfield streets.

The election of delegates will be held between the hours of 4 and 7 o'clock P. M., and will be held, as far as practicable, by the Republican members of the election boards in the several districts; and in those districts where the Republican election officers are a minority of the regular election boards, the said officers are authorized to appoint enough additional officers to complete the board.

The voting in the cities and boroughs shall, in all cases, be by ballot, and in the townships by marking.

The President of each Convention will appoint a Committee of three, the three Committees thus appointed to meet together, as soon as practicable after the adjournment of the Conventions, and appoint a County Committee for the ensuing year.

By order of the County Committee.

RUSSELL ERRETT, Chairman.

JOHN H. STEWART, Secretary.

FOR DELEGATES to the Republican State Convention, we hear the following list of names discussed with a very general approval:

A. M. Brown.	Russell Errett,
James L. Graham,	T. M. Bayne.
Charles Jeremy,	J. E. McKelvy,

Other names are also mentioned on the streets, and will be presented to the Judicial Convention. Only eight are to be selected.

THE Pittsburgh *Commercial* would like to break the force of its fall, by confessing its offense, against the honest reputation of a citizen who is too well-known to be successfully maligned by that unscrupulous print. Its abject disavowal now is marked, upon its face, with all the emblems of fiction which are characteristic of the *Commercial*, its only sincerity—and that in the most distateful act of simple justice of which our neighbor has ever had experience—being manifested in its cringing eulogium, upon a citizen whom it has once more discovered to be above its malignant reach.

STATE POLITICS.

The Luzerne Republicans instruct their delegates for KETCHAM for Governor; Lycoming, Lawrence, Union, Mifflin and the Blair Senatorial district are for GEARY; Carbon is for LILLY; HARTRANFT is rapidly gaining strength throughout the State; Northampton is for SELFRIDGE; COLEMAN, of Lebanon, seems to be out of the field.

THE CONVENTIONS TO-DAY.

The County Convention will meet at the Court House, and will be called to order by JOHN H. STEWART, Esq., the Secretary of the County Committee, who will preside until the regular President shall be elected.

The Judicial Convention will meet at Masonic Hall at the same hour, and will be called to order by the Chairman of the County Committee, who will also preside until the Convention shall be organized.

The Legislative Convention will meet at City Hall, at the same hour, and, by the request of the Chairman of the County Committee, Dr. A. H. GROSS will preside, as before stated.

The practice has heretofore been for the general Convention to be called to order by the Chairman of the Committee. The above changes are made necessary by the present subdivision of the Conventions.

TO-DAY'S RESPONSIBILITIES.

The Republicans of Allegheny have committed the most responsible of trusts to their delegates who meet in to-day's Conventions. Nearly six hundred and fifty of the most active and influential Republicans of this county will assemble with instructions to nominate suitable candidates, for the ticket to be supported at the October polls by twenty-five thousand of our citizens, who are of one political faith.

From every precinct of these two cities, of the boroughs and of the suburban townships of a populous and wealthy county, come the leaders of our Republican organization to counsel together touching the public interest, and to take such wise action as shall redound to their political advantage, and to the public good. These delegates stand especially charged with great responsibilities in the premises, since their action, to-day, is to be decisive as to all the public concerns common to the entire people, of a county which habitually entrusts the conduct of its general control to the Republican organization. Those responsibilities are none the less marked since the clamors of a portion of the county press have equally inspired public opinion with a full confidence in the past fidelity of our public servants to the interests entrusted to their care, and with an inflexible determination to exact an unimpaired official fidelity in the future.

The delegates will be held by their constituents responsible for the selection of such a ticket, this day, as shall merit and receive the cordial support of an intelligent and upright Republicanism. The responsibilities of the occasion, such as they are, rest upon the shoulders of the delegates, and not upon ours. They, not we, are to select the nominees. They and we, and all of us, the leaders, rank and file of our Republican Army, are pledged to maintain the wise results of their to-day's deliberations. Every Republican in this county, whose political faith is bred into him more than skin-deep, reposes the fullest confidence in the judgment of the representatives, whom we have to-day empowered to bind us faithfully to the conclusions which they shall reach. He who, in advance, impeaches the integrity of their motives, arraigns the wisdom of their councils, and repudiates their authorized decisions, is neither a sound Republican nor even a fair-minded citizen.

We implore the representatives of our party so to discharge their responsible trusts to-day, in each and every particular, as to strengthen rather than to diminish every sincere Republican attachment, to protect and promote the material interests of all our people, and to maintain the high repute of this great county. We exhort our friends in the Conventions to remember that principles are first and that individuals should come last, in their decisive regards, and that they may so express themselves, in the choice of the ticket, and in any declarations of opinion, as to repress all possible dissensions in our own ranks, and to win the sincere respect of all our fellow-citizens. In separating then, they will return to their constituents with a record which shall be the brighter under all assaults, and which shall merit an old-fashioned vote from the Republicans of Allegheny.

THE SPANISH REGENERATION.

The people of Spain are encountering the severest of strains upon their patriotism and patience. It is now announced that the Cortes have postponed any decision, upon the question of succession to the vacant throne, until November next, when the rivalries of candidates are to be submitted to the award of a popular vote. In the meantime, a complete change in the Provisional Ministry is conceded to the public jealousies.

In the patient reticence with which Spain has borne an already long protracted interregnum in her Constitutional government, that people have wholly disappointed the concurrent apprehensions of Christendom. Her annals, since the glorious days of Ferdinand the Catholic, present no such splendid example of a National dignity of character and stability of purpose, as this which has been exhibited in the self-restraint of her people, through all the critical months which have elapsed since the expulsion of her despotic and dishonored Queen.

It is indeed wonderful that a nation, whose sole experience of governmental polity, through all the centuries of the later civilization, has been one of arbitrary despotisms, and of the most hopeless submission to that yoke of authority which was always of iron to the masses of her population, should thus, with one long, calm, steady, inflexible step, place herself in the front rank of European advancement, maintaining there a grave repose which astonishes an almost incredulous world.

Let us sincerely trust, in the highest interests of a Christian humanity and of an enlightened polity of democratic self-government, that the Spanish nation may patiently continue to abide the ultimate issue of their problem, and that this issue shall vindicate their absolute fitness for a loftier place among the European peoples, than they ever yet filled, even in the palmiest days of their ancient renown. The experiment now in progress grows daily in critical interest, and awakens a constantly increasing solicitude throughout the civilized world.

THE ALABAMA—LIGHT AHEAD.

Minister MOTLEY arrives in England at a moment most opportune, since he meets there the first ripple of the reacting tide of English opinion upon a question of grave international concern. The outburst of general indignation, with which that people received the rejection of the Alabama treaty by the Senate, as this official act was interpreted to them through the accompanying manifesto of Senator SUMNER, has already begun to yield place to more agreeable, evidences, that the loftier English sense of justice has been effectually touched, with a swelling conviction that an inexcusable wrong upon a friendly power demands an ample reparation, in the interests of English honor, as well as of international right. There can be no doubt entertained, by any careful observers of the current tendencies of British sentiment, that the reaction now setting in—which is due in part to the unreasonable violence of four weeks since in the contrary direction, and in part to the intrinsic merits of the question in controversy as viewed by American eyes—is highly favorable to a speedier and more equitable adjustment of the issue than had previously been hoped for on either side of the Atlantic. Whatever other questions may be vamped up by England, by way of set-off for the clear claims of the Republic to the fullest satisfaction for the injuries inflicted by Anglo-rebel cruisers, it becomes plainly manifest that the latter issue is already very close to a final adjudication in our favor, under the consenting verdict of popular English opinion. They cannot shut their eyes to the decisive preponderance of the law and the facts against them—and they evince a rapidly increasing disposition to concede the absolute merits of our case.

Our new Minister is fortunate in his appearance at this moment at the English Court. He will, we believe, know how to receive, in the most graceful way, those popular tokens of welcome which nothing but his own fine sense of official and personal dignity will repress, and he will be ready to acknowledge the early overtures of that Government for a re entry upon fresh negotiations, upon a basis which shall accord faithfully with the just demands of one nation and the equally just perceptions of the other.

THE NEXT ISSUE.

When, by reason of the Rebellion and the prosecution of the war for its suppression, it became manifest that a vast and unprecedented public debt would be contracted, all persons who were skilled in public affairs foresaw that as soon as the conflict should be over, and the States restored to their normal relations with each other and the Union, questions of Revenue, Expenditure and Currency would assume positions of the first importance. What was then anticipated, is now actually happening. The matters which are now uppermost in the minds of official personages as well as of private citizens, relate to the national finances. Of necessity, no system of governmental income has been or will be devised which has stood or can stand disconnected from the question of Protection of Domestic Industry. National revenue, except under most extraordinary circumstances, must be derived from the current earnings of the population. Whatever contributes, therefore, to the general prosperity, adds to the certainty and ease with which the exactions of the public treasury will be supplied.

That there are radical differences of opinion among intelligent and patriotic citizens as to both the intrinsic and relative advantages of the systems of Free Trade and of Protection, is abundantly manifest. Certain classes of speculative philosophers and humanitarians unconsciously sinking out of sight some of the essential elements of the problem, have unhesitatingly declared in favor of Free Trade; but the government of no civilized or even semi-civilized country has ever been willing to reduce the theory of these classes to practice. Approximations have been made towards unrestricted commercial intercourse; that is, some nations which have most completely perfected their machinery, which have most largely accumulated capital, and which are embarrassed by redundant population, thus making labor cheap, have reduced, in particular instances largely, the number of dutiable commodities. Not one, however, clamorous for Free Trade in the abstract, or for adoption by other nations, has seen proper to set an example of doing what it thus commends.

In the United States the condition of the national finances forbids a resort to Free Trade, even if a majority of the people were strongly inclined thereto. The Treasury has but one choice, and that is to derive from goods imported into the country the largest practicable amount of revenue. Judgments may differ as to what scale of imposts on particular articles will yield the greater revenues; but all must acquiesce in the conclusion that whatever income can be obtained at the custom houses is essential in order to meet the public obligations. That lower rates of impost on some articles, as wines and spirits, would produce larger cash returns, is claimed, and with a good degree of probability. But, as a whole, the present tariff is yielding a greater amount of external revenue than was ever before collected, or than would follow a general lessening of the duties. It would seem, therefore, to be the part of wisdom to let the present arrangement remain at least until such period as the strain upon the Treasury shall be diminished by the payment and cancellation of a considerable portion of the national indebtedness, or the refunding thereof at a much lower rate of interest than that now stipulated. But this is not to be, except as the result of a most animated and exhausting debate.

Men who are engaged in a particular calling are apt to infer that the real prosperity of the whole country can be measured most accurately by the advantages and affluence which they and their pursuit happen to enjoy. This species of natural egotism is shared more fully by the men who are concerned in foreign commerce than by any other class of their fellow-citizens. Hence they think it decidedly well for them to amass immense fortunes, but most injurious and unjust for manufacturers to attain to opulence. They instinctively point to fortunes made by production as evidences of extortion, while they complacently regard yet ampler fortunes, realized through traffic, as entirely legitimate.

It would be to take an inadequate and misleading view of the matter to jump to the conclusion that all large dealers in foreign goods are necessarily advocates of Free Trade. When Mr. A. T. STEWART was made Secretary of the Treasury, it was peremptorily inferred from his vocation that he was opposed to Protection. This inference proved to be entirely erroneous. Dealers in merchandise care comparatively little where particular articles are fabricated. The case stands differently with individuals who are engaged in the transportation of wares.

That the advocates of Free Trade are deeply in earnest, and mean to press for such a reduction of imposts as will increase the bulk and value of foreign merchandise brought into the country, while diminishing the production of corresponding articles here, is not a matter of conjecture, but of certainty. There are indications that a considerable portion of the agricultural population, through misapprehensions of their real interests, are inclined to take the same direction.

While these tendencies are observable by all persons who do not willfully shut their eyes, certain classes of our citizens, who are most deeply interested in the maintenance of Protection, take courses calculated to bring that policy into disrepute. Take the authracite coal miners and some of the proprietors of those mines as examples. Unexampled profits were made by these people for a considerable series of years. All through the war the condition of the country operated powerfully to their advantage, and gains out of proportion to those in other departments of business were realized. These excessive profits produced the natural effect of drawing capital from other pursuits to engage in developing the coal fields. The supply ultimately outran the demand, and prices went down. Consumers obtained legitimate compensation for the excessive rates they had previously been forced to pay. At this point the workmen, and at least a portion of the owners, combined to suspend operation altogether, so as to create a fictitious scarcity, and thus force up prices unnaturally. Extreme violence is threatened against all workmen who prefer to go on at current rates; and past experience shows that such threats are not idle, but serious and will certainly be executed.

The result of these movements is manifest. The supply of coal will be brought level with or below the demand for it, and prices will consequently advance. It is not our purpose to inquire whether the increased wages that may be obtained in this way by the miners will compensate for the time lost and outlay incurred. What we mean is to call attention to the effect of this factitious course upon the general system of Protection.

One of the most cogent arguments in favor of Protection has been, and must ever be, that while foreign competition is wholly or measurably excluded by discriminating impost duties, domestic competition will speedily bring down the cost of home produced commodities to the lowest practicable point. It is clear, therefore, that whenever foreign competition shall be excluded by the tariff, and home competition crushed out by combinations, either among workmen, or proprietors, or both, that this argument fails. The mass of consumers will not patiently submit to be exploitered after that fashion. They will insist if domestic competition shall be excluded, that foreign competition shall come in. These observations are just as applicable to all other branches of industry, as to the mining and marketing of anthracite coal.

Believing the policy of Protection to be of the highest national importance, we are most solicitous that its professed friends should not bring it into disrepute. This country possesses very remarkable natural resources. The success and grandeur of the republic can be fully secured only by the development of all the latent means of wealth and enjoyment within its control. All the practical as well as esthetic arts of the highest civilization ought here to take root and receive their highest exemplification. Nations, like individuals, are of value and importance in proportion as they are skilled in the higher employments, while the descent to barbarism is in exact ratio as skilled industries die out.

This question of domestic industry is destined to assume presently a conspicuity not hitherto awarded to it. Quite possibly it will occasion a new organization of the political elements. In view of these probabilities the friends of Protection should be careful and not play into the hands of their opponents.

OBITUARY.

ON THE DEATH OF MATTIE U. M'COOK.

Like the rose that is smitten in its beauty and bloom, "Little Mattie" has fallen. Just in the spring time, when the flowers are blooming, and the birds are singing, and nature is happy, God, whom she loved with all her heart, has seen fit to take her away, a lovely flower, to bloom in that better land, that realm of light beyond the skies. The little friend of every one, endeared to all, the idol of her home, the darling of her fond parents, the favorite of her school, the delight of her teacher; always happy, with a mind as brilliant as her form was beautiful, and a soul as pure as the flowers that were strown in her grave. She has gone through the valley, and over the river, to the land of the good, to the home of the blest.

Her sorrows are ended, and her joys are complete,
While we weep for her loss, let us live so we'll meet:
For we know she is blest with her Saviour above,
Where we'll see her again, if we trust Him. and love.

NEW BRIGHTON.

Decoration Ceremonies.

[Correspondence of the Pittsburgh Gazette.]

NEW BRIGHTON, May 31, 1869.

The members of the Grand Army of the Republic, with the citizens of New Brighton generally, met in front of their Hall on Broadway, last Saturday, at one o'clock P. M., where they formed a procession, headed by the New Brighton brass band, and under the command of the Post officers, marched to the Cemetery, and with becoming ceremonies, decorated the graves of their fallen comrades with flowers and evergreens, after which the procession halted in front of a large tablet inscribed to the memory of the brave men whose bodies were left on the fields of conflict and death. After decorating that tablet, suitable songs were sung, addresses were delivered and prayers offered to the great God who has given us victory over our enemies, and peace throughout our borders.

The widows, orphans, and other relatives of our fallen heroes were not forgotten.

We owe them a great debt. Let us do right by them. C.

BEAVER FALLS, PA.

Sudden Death by Lightning.

[Correspondence of the Pittsburgh Gazette.]

May 31, 1869.

Last night a little after eight o'clock, during quite a violent thunder shower, which passed over this place, a house on the river bank, occupied by a family by the name of Gibb, was struck by lightning. It passed down the chimney to the second floor, where it took an oblique course passing through the hearth and first ceiling, and then struck Mrs. Gibb on the chin, passing down her breast, killing her almost instantly. She was standing near the stove. Others sitting near her were severely shocked but not injured. It seems Mrs. Gibb's body received the entire charge, as there were no further traces of it to be seen. The building was very slightly injured. C.

The Good Country.

Edna Dean Proctor, writing in the *Independent*, of her arrival at the Hudson River Railroad depot, in this city, at an early morning hour, says:

Among the throng waiting the departure of the train was a group of emigrants; and in it two children crying bitterly, apparently from sheer sleeplessness and fatigue.

"Poor little things," I said, "how tired they seem."

"Yes," answered the mother, who stood by, trying to comfort them—a meanly-clad, worn-looking woman, but with soft dark eyes and abundant chestnut hair coiled under her torn hood. "Yes, they are tired out. We landed yesterday from England, after five long weeks at sea. But thank God! I don't mind it now. *We've got to the good country.*"

A SINGULAR MISHAP AND NOVEL OPERATION.—Whilst in Dr. C. C. Field's office, a few days since, we were shown a queer specimen of a biped, in the shape of a chicken with *four legs*, nicely preserved in spirits. Upon inquiring as to how he came in possession of so queer a specimen of the chicken tribe, we were informed that he took it *from the throat of a young lady*, on Friday last. She came to the office on that day, and complained of having something in her throat, when the Dr. inserted the forceps and much to the astonishment of himself as well as the young lady, drew forth the "difficulty."

It appears that the young lady in question—whose name we will not mention—prides herself considerably upon her vocal powers, and for the purpose of "clearing her voice" occasionally indulges in raw eggs. She says that on the evening previous to the day she called on the Dr., she was at the farm and took an egg from a chicken's nest, broke open an end and "sucked it," at which time she must have gulped down the chick.—*Sentinel.*

IN Derby, Connecticut, a society has been started under the name of the Order of the Eagle, for the object, as set forth in the preamble and constitution, of diminishing political corruption, and of instilling into the young men and boys of America a high spirit of honor, a respect for their country and a love for its flag. The members take an oath that they will support the Constitution of the United States, vote for the best man irrespective of party, and, if elected to office, will never accept a bribe. Branches of the order are to be established in every city and town throughout the Union, and it is proposed to keep up the interest in it by having in connection with it free reading rooms, gymnasiums, fencing or boxing schools, military companies and baseball clubs.

IT is understood in Wall street that Marshall O. Roberts and other heavy capitalists have signed contracts for the construction of the Tehuantepec Railway, and will begin work immediately. The Panama Railway stock has declined heavily in consequence.

JUDGE BLACK, who had his arm crushed a few doys ago by a railroad accident near Louisville, is reported to be in danger of losing his arm. He is at Louisville, under the care of Dr. Yandall.

LAY REPRESENTATION.

The Other Side—Opposition Meeting—Address of J. W. F. White, Esq.

The question of lay representation is the all-absorbing theme of discussion among the members of the Methodist Episcopal Church at the present time. We reported at some length a meeting held last week, at which Bishops Simpson and Kingsley delivered addresses favorable to the measure. Since then its opponents have been quite active, and as a result they assembled last evening in the Smithfield M. E. Church to discuss and consider the other side of the question. The attendance was quite large, though not as crowded as on the former occasion.

Mr. W. W. Brickel was called upon to preside, and in a few brief remarks stated the object of the meeting.

Devotional exercises followed, conducted by Rev. R. L. Miller, pastor of Centenary church.

The Chairman then introduced J. W. F. White, Esq., who spoke for more than an hour upon the question. He contended that the introduction of lay representation in the church was revolutionary, as it changed the organic law of the church, which provided for no such change; that it would create an expense which would not be met, as contemplated and argued, by a tax of about one-half cent on each member, but which would practically have to be met in the same manner as the ministerial delegation is now provided for—out of the proceeds of the Book Concern—thus diminishing the Church revenue; that it would practically destroy the itinerant system and consequently strike at the very foundations of Methodist discipline; that it would place in the hands of a small minority—the lay delegates—the balance of power, so great that they in reality would be the controlling agency of the Church; and, finally that it interfered with and unquestionably circumscribed the functions of the Ministry chosen by Divine and human authority, and best calculated by study, and other favorable circumstances to govern the Church.

In reference to the arguments advanced in its favor, that it would make the church more in accord with the American mind; that it would prevent hasty legislation; that the laity should have a voice in church councils; that by it they would be made to feel more interest in church affairs by reason of greater responsibility, he contended that the wonderful progress of the church in the past was a sufficient argument in answer to all of them. The speaker dwelt with force and eloquence upon the several points named, and we regret our space will not admit of more than this brief synopsis. The address was enthusiastically received, the audience at one time breaking the bounds of church propriety, and heartily applauding.

At the conclusion it was unanimously requested for publication. The Doxology was then sung, and the audience dismissed with the Benediction by Rev. Miller.

Slight Accident.

Between four and five o'clock yesterday a slight accident occurred on Diamond street, near Smithfield, by which a boy working in J. D. Grove's carpenter shop, was slightly but not seriously injured. The parts which support the front wall of the shop, owing to the heavy rain, gave way, letting the front wall fall out on the sidewalk, and the boy who was working on the second floor was covered in the rubbish, He was immediately extricated, when on examination his injures proved to be bnt slight.

A RESPECTABLE Protestant young woman wants a permanent situation as seamstress; is a good dressmaker, can cut and fit and operate, and would make herself useful; no objections to the country. *None but first class ladies need apply.—Advertisement in Phil'a. Ledger.*

MECHANICAL MEDICAL APPLIANCES.

There are certain phases of disease, and certain diseased conditions of the human system, which proceed from displacement and mal-position of some of the various organs of the human body. These are not remediable by the usual and ordinary methods used for the cure of other ailments; but require some mechanical stay or support to maintain the parts in position until they are healed. Prominent among these may be classed a displacement called hernia, or rupture, which is a protrusion of part of the bowel, and which must be returned and kept to its place by some outward support which should be properly adjusted in order to secure immunity from inconvenience and danger. The prevalence of this condition is now very common and should be attended to, immediately on its appearance, not only because of the present inconvenience which its produces, but also in consequence of the usual danger of strangulation which is rarely remedied but by a surgical operation.

Varicose veins in the legs and varicocele are other forms of structural changes which need immediate and scientific outward support, in order to afford relief or effect a cure. Each of these conditions are now as much within the pale of successful treatment as any of the other diseases to which mankind are liable.

Stooped shoulders may be cured at once by the use of my Shoulder Braces, which not only maintain the body in an erect position, but at the same time enlarge its capacity, and allow free and full expansion to the lungs, always a necessary condition to a healthy and perfect use of the pulmonary organs.

There are hundreds of females who would find great benefit from wearing these shoulder braces as they are so constructed as to take all the dragging weight from the back or spine and suspend the clothing from the shoulders. Those who use my shoulder braces need not wear suspenders, as they answer the double purpose of shoulder brace and suspenders; in fact they are the best suspenders ever invented. Sold and applied at

THE VITAL STATISTICS OF THE UNITED STATES

Show that perio leal fevers and acute and chronic disorders of the sto nach and bowels are among the most prominent and fatal diseases in this country. Disobedience to the laws of health, as regards diet; the use of pernicious stimulants; and the wear and tear of business excitement, and of "fast life" generally, have much to do with the prevalence of these maladies in our cities; while in the West, and especially in the newly opened districts, they are chiefly due to malaria, unwholesome water, and the exposure and privation incident to life in new settlements.

NOW, IT IS A FACT that that it is as possible to protect the human system against these maladies as to guard life and property against the incursions of assassins and thieves. Strengthen the vital organization with HOSTETTER'S STOMACH BITTERS, and it becomes as capable of resisting the active principle of epidemic or endemic disease, as a fire-proof safe is of resisting the action of combustion. This is the experience of thousands who have remained unscathed by malarious disorders in the sickliest seasons, while their neighbors, who neglected to tone and regulate their systems with this unequaled medicinal stimulant, have fallen thick and fast around them. Weakness invites disease. Vigor repels it. Help nature to fight the good fight with infection, whether it be in the air, in the water, or the soil with this matchless preparation—a compound of the rarest vegetable extracts with the purest of all diffusive stimulants.

To Messrs. Frew, Hutchison, Dilworth, O'Hara, Long, Logan, Waring, Fleming, Kirkpatrick and others:

GENTLEMEN: Your very flattering call this moment received, and in reply I would say I have been elected as a delegate to the Convention to which you refer. Instructed to do my best to select, as Standard Bearers, men who would not only do honor to and elevate the character of the Republican party, but would at the same time represent the great Manufacturing and Commercial interests of our country, and I fear that my own nomination would not be complying with the requirements of this platform. If, however, you think differently, my name is at your service, and if nominated and elected I will endeavor to act to the best of my ability

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, MONDAY, May 31, 1869.

Business was very dull to-day and what is worse still there are no indications at present of any immediate improvement. It is but proper to remark, however, that trade is usually dull and neglected at this season of the year, and we may expect dullness to continue for the next two months. The weather is all that could possibly be desired for the crops, and the prospects for an abundant harvest were never better.

APPLES—Choice, $7@8.

APPLE BUTTER—Sales at 1@$1,10.

BUTTER—Is very dull and may be quoted at 18@22 for good to prime fresh Roll.

BEANS—Dull at $2@2,50.

CARBON OIL—Dull and lower and may now be quoted at 27@28.

CORNMEAL—$1,50@1,75 per cwt.

CHEESE—In better supply but unchanged: Sales of new Western Reserve at 18@20, and New York Goshen at 22@23.

DRIED FRUIT—In fair demand and limited supply; sales of Peaches at 14 for quarters and 18 for halves, and Apples at 13@15, as to quality.

EGGS—In fair demand and with light arrivals prices are sustained at 17@18.

FEATHERS—Live Geese Feathers may be quoted at 85, to the trade, and the usual advance for small lots in store.

FLOUR—Is quiet and rather weak, though without quotable change in prices. Sales of Spring Wheat brands, in store, at $6,50@7 and Winter Wheat at $7,25@7,75. Rye Flour dull at $6,50@6,75.

GRAIN—Wheat is dull and nominal at $1,45@1,47 for prime Red. Oats unchanged 67@68 to arrive, buyers furnishing sacks; 70 for car load lots, on spot, and 75 in store. Ear Corn is still quoted at 78@80 on wharf and track and 85 in store, for prime Yellow. Rye is dull and nominal at $1,25@1,30. Prime Spring Barley, $1,75.

LIME—Cleveland Lime is quoted at $2 50, per bbl, and Common White at $1,75.

MAPLE SYRUP—Sales in gallon jugs at $1,50.

POTATOES—Arrivals continue light but the supply is up to the demand, and prices are unchanged; sales in store at 50.

PEANUTS—Quoted at 12c.

PROVISIONS—The market is reported a little stronger but prices are unchanged. Bacon Shoulders; 14; Ribbed Sides 16¼@16½; Clear do, 17¾@18; Plain Sugar Cured Hams 19@19¼; Canvassed do 19¾@20. Dried Beef, 20@20¼. Lard, 19¼ in tierces, and 20¼ in kegs and buckets. Mess Pork $32@32½.

STRAW—Sales at Allegheny Diamond market at $18@21.

SEEDS—The season is about over and there is not enough selling to establish quotations.

SALT—Sales of car load lots at $1,83@1,85.

TALLOW—Is quoted at 10¼@10⅝, for rendered, and dull.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, MONDAY, May 31, 1869.

The oil market was rather quiet today and the volume of business comparatively light, while compared with Saturday, prices have undergone but little change. While prices are too low for some and too high for others, it is very gratifying to be able to point to facts that place beyond doubt the resumption of business; we refer to receipts and shipments. The receipts of Crude by the Valley Road, reported Saturday and to-day, foot up over ten thousand barrels, and the shipments of Refined east, reported to-day, were over three thousand barrels. Here is tangible proof of business, and our refiners having generally put their works in operation, is evidence of the fact that they mean business, and the season, which looked anything but bright thirty days ago, now gives promise of being a good one, at least much better than was generally expected.

CRUDE.

The Crude market with the exception of being comparatively quiet, presented no new characteristics to-day worthy of special notice. The sales foot up some ten thousand barrels, while compared with Saturday, prices have undergone but little change. Sales 1,000 and 2,500 bbls to be delivered on first water, at 12¾; 1,000 June, seller, at 12¼; 1,000 on cars at Oil City, at $4,80; and 5,000 all year buyer, at 15.

REFINED.

Spot oil was stronger to-day which may be attributed to this being the last of the month, with sales of 3,500 bbls reported at 29½. There was but a single other sale reported, 1,000 bbls last half August at 30½. June first half quoted at 29½; July first half at 29¾; August at 30½; and November and December was reported as having been offered at 31¾.

Dry Goods Market.

NEW YORK, May 31.—There have been large movements in plain Cottons to our largest dry goods jobbers, based on the idea that prices have touched bottom, and that an advance must take place soon, as many brands have been sold at a serious loss, and the mills have consequently curtailed their production. Interior buyers, who are in need of goods, for early trade, would do well to supply themselves in time, before an advance is established by jobbers. At present prices rule steady.

COOKING BEANS.

If, my dear Rural, you ever should wish
For a breakfast or dinner a genuine dish
Of the beans so famous in Boston town,
You must read the rules I here lay down:
When the sun has set in golden light,
And round you fall the shades of night,
A large deep dish in your first prepare,
A quart of beans select with care;
And pick them over, until you find
Not a speck or a moat is left behind.
A lot of cold water on them pour
Till every bean is covered o'er,
And they seem to your poetic eye
Like the pearls in the dephs of the sea to lie;
Here, if you please, you may let them stay
Till just after breakfast the very next day;
When a parboiling process must be gone through;
(I mean for the beans, and not for you;)
Then, in your pantry there still should be
That bean pot, so famous in history,
With all due deference bring it out,
And, if there's a skimmer lying about,
Skim half the beans from the boiling pin
Into the bean pot as fast as you can;
Then turn to Biddy and calmly tell her
To take a huge knife and go to the cellar:
For you must have, like Shylock of old,
A pound of flesh," ere your beans grow cold;
But very unlike that ancient Jew,
Nothing but pork will do for you;
Then tell once more your maiden fair,
In the choice of the piece to take great care,
For a streak of fat and a streak of lean
Will give the right flavor to every bean.
This you must wash, and rinse, and score,
Put into the pot, and round it pour
The rest, till the view presented seems
Like an island of pork in an ocean of beans;
Pour on boiling hot water enough to cover
The tops of the beans completely over.
Shove into the oven and bake till done,
And the triumph of Yankee cookery's won!
—*Moore's Rural New Yorker.*

Cellars.—The cellar is a part of the house, and needs attending to as well as the kitchen or parlor and possibly more. But it does not get it. Now and then there is a clean cellar; you meet it and you are surprised. It is a pleasure to be in such a cellar. But such cellars are rare; even a woman reputed neat is shy of her cellar.

Now the cellar with its odors is a breeder of mischief. This has often enough been said; but yet our cellars remain as they were. There is much sickness, especially in the spring; but people never think of their cellars, they do not lay it to the odors that are constantly emanating from them, and entering the rooms. There is little escape out door for the pestilent air before it first afflicts the family. Here then is a malaria and a poison constantly entering the room where the family are, and into the other rooms till up into the garret where it is held. But the first attack, fresh from its haunt, is in the rooms occupied; and this is breathed all night steadily, in the morning the same, and during the day; there is no riddance.

This odor is perceived every time the cellar door is opened. If apples prevail, apples will be the smell, if cabbage, the poisonous scent of that plant rotting will invade your olfactories and invade your lungs. There are potatoes rotten, foul enough, and perhaps carrots and turnips, and onions, and what not. Mold is universal, and mixes with the rest; a poison it is as well as the rest. And there is the air itself, confined, perhaps, all winter.

How many cellars do not answer to this description? Is this as it ought to be? No sensible man or woman will say it is. How comes it that each man or woman owning a cellar is ashamed of it, excuses it?

We dread to go into a cellar in the spring. Fruit kept there, and kept sound, and the air fresh and sweet; all mould kept out, and vessels of all kinds wiped and kept dry, the walls limed, and deodorizers constantly employed; this is a different thing. Once in a while you meet with such a cellar, and you want to stay in it. There is a scent, but it is such a scent as you delight in. The fruit is ripening, telling you by the escape of its scent, and by the rosy cheeks it exhibits, There may also be a ground smell when you approach the roots, and the boxes that hold your scions, etc. This is not offensive. But putrefaction in all its forms is, and especially the advanced stage of it.

Such a cellar, pure, sweet, healthy, is a source of comfort in a house. Every time its door opens (in spring) you are reminded of what not even the apple blossoms themselves can do—take you back to the earlier times, the dearer *domestic*, closer than all outdoor life. A cellar, therefore, wants attending to as much as any part of the house, and *more*; it needs it more; it is nearer at the seat of pestilence-breeding, in a warm, constantly warm part of the house during the winter.

Attended to properly, here is the place to keep things. Of course you want different compartments, set off for different purposes: some kept warmer, some kept cooler. Butter will stay sweet in such a cellar; so will cream. A cooked dish, after cooling in the open air, will not absorb bad odors here, sweet odors rather. From such a cellar you can set your table with what is always appetizing, and you set what is an excellent example!—*Correspondence Prairie Farmer.*

Growing Celery.—Put down two lines eighteen inches apart; and dig a trench about twenty inches deep, running north and south. Then put in a good layer of rotten barnyard manure, with a layer of fine soil; fork it over well; add more manure and more soil; mixed well together, till within about eight inches of the top. Trim off the top of plants with a sharp knife. Plant with a stick about ten or twelve inches apart. Cover over the trench with boards to keep off the sun till the plants have begun to grow and hold up their heads. In about nine days I hold up each plant with one hand gently, and with a little stick I scrape along on each side of the plants and put a very little soil to them; this I do about every other day till the plants are up above the trench. I go on in the same way till it requires banking up with the spade. While in the trench I give the plants plenty of water. If treated in this manner a good long stick of white celery will be the result.—*N. E. Farmer.*

Foot Rot in Sheep.—I have had some experience with this disease, and the following remedy cured it with little labor: Take one-half pound muriatic acid—2 ounces blue vitroil—one-half ounce verdigris—2 ounces spirits turpentine—mix. Put this in a bottle with a quill or bole in the cork. Take each sheep and pare its hoofs down to the quick, taking care not to draw the blood. When you come to a case of foot-rot, pour into the cleft of the hoof a few drops of the above liquid, and let the sheep go on a clean barn floor, a dry straw yard, or some other place where it cannot step in the mud. Watch the flock carefully, and whenever one is seen limping, apply the liquid again, first cleaning off carefully any dirt that may adhere to the hoof. After the hoofs are once pared down close, the hardest part of the work is done. Keep the sheep on a dry upland pasture, and by all means out of any swampy land.

A correspondent of the *Western Rural* says: "I would like to suggest a remedy for foot-rot in cattle. Take a pint of turpentine; one ounce of finely pulverized corrosive sublimate; one ounce of gum camphor. Let the mixture stand for twenty-four hours, when it will be fit for use. The value of this liniment depends greatly upon the fineness to which the corrosive sublimate is pulverized. I believe this to be the most penetrating liniment in the world. It destroys all infection, putridity, ulceration, old running sores, proud flesh, and all skin and bone diseases of the horse. I have never tried it for hoof rot in cows, but have no doubt it will answer the purpose. In using, always shake the bottle well before taking out the stopper. Pour the liquid into an earthen vessel, as it corrodes vessels of metal. Apply with a little mop of soft rag tied on a stick, once a day for five days, then omit for three days. If the liniment is too severe, grease with hog's lard, wash the parts clean and apply again."

To Clean Paint.—There is a very simple method to clean paint that has become dirty, and if our housewives should adopt it, it would save them a great deal of trouble. Provide a plate, with some of the best whiting to be had, and have ready some clean, warm water and a piece of flannel, which dip into the water and squeeze nearly dry; then take as much whiting as will adhere to it, apply it to the painted surface, when a little rubbing will instantly remove any dirt or grease. After which, wash the part well with clean water, rubbing it dry with a soft chamois. Paint thus cleaned looks as well as when first laid on, without any injury to the most delicate colors. It is far better than using soap, and does not require more than half the time and labor. —*Coach makers Journal.*

Horses Feet Require Moisture.—Nine-tenths of the diseases which happen to the hoofs and ankles of horses are occasioned by standing on the dry plank floors of the stable. Many persons seem to think, from the way they keep their horses, that the foot of the horse was never made for moisture, and that, if possible, it would be beneficial if they had cowhide boots to put on every time they went out. Nature designed the foot for moist ground—the earth of the woods and valleys—at the same time that a covering was given it to protect it from stones and stumps.

How to Grow Large Potatoes.—The *North British Agriculturist* says: "To improve the size of potatoes, whether planted with small or large, whole or even cut potatoes, when the plants are only a few inches high, let the shoots be reduced, by pulling them up, to one or two, or at most three of the strongest. The tubers will, consequently, be fewer and very much larger, also in measure nearly all fit for market and the table. Every grower will do well to try a few rows by way of experiment, if he disbelieves the truth of this statement."

Rhubarb or Pie Plant.—This should be transplated every two or three years, or the stocks produced will be quite small. The work may be done in almost any season of the year, for it will bear almost any kind of treatment. It is better to do the work in the spring before the plants have started much, but if not, any time will do until the first of June.

Some growers are in the habit of pulling the rhubarb for market, and after the crop is secured then transplant for the next year. One of the best growers of this plant we ever knew would never allow this course to be pursued. This plant must have a very large amount of manure to give the very best results.—*Journal of Horticulture.*

To Relieve Choked Cattle.—Having lost a heifer by choking with a turnip, and having had one choked since for which I found relief, I send you my remedy, for publication: Get eight feet of telegraph wire, double in the middle, and twist it together so as to leave a loop in it. Take the creature by the horns and run the loop end of the wire down its throat and pull it out, and the turnip will be pushed down or pulled up in its mouth and give instant relief.—*Country Gentleman.*

THE sunflower is very useful. Its leaves soon become large enough to be used as a covering for young cabbage and tomato plants. Its stem affords an excellent hop or bean pole, and when dead in the fall, if cut up and kept dry, it answers well for kindling wood. The leaves can be plucked off through the summer without injury to the plant, and dried for fodder, or fed green to milk cows or horses. Its seeds make a fine oil, or chicken feed. It is said to be an absorbent of malaria, and is often cultivated as a preventive of fevers near dwellings that occupy low places.

THE Peachblow potato. A gentleman assured us that he originated this variety, and in this way: He cut two potatoes—one the old Merino red and the other the Carter—fitted the halves of one to the other nicely, and bound them together with twine. They were thus planted, and produced, as he assured us, what is known as the Peachblow potato, combining in a considerable degree the hardiness and productiveness of the red with the good quality of the white.

LARGE TREES, evergreens or deciduous can be safely removed and the most of the roots preserved, if a moist day is selected. In desperate need try a moonlight night. It is the sun that does the mischief. Tree roots stand currents of hot air about as well as fish do. Small trees are better every way—if one can wait. The man who has not yet learned the pleasure of watching growth has one pleasure yet in store for him, if he will put himself in the way of it. A love of planting comes with the practice of it—like any other virtue.

CLOVER ploughed in has three effects. It gives vegetable mould. The roots bring to the soil plant-food out of the subsoil; and the acid produced when the decay is going on aids in dissolving the mineral parts of the soil. In granite lands this last is of as much importance as either of the others.

To cure foundered horses: Take a lump of alum the size of a walnut, powder it and dissolve in warm water. The horse must be drenched in this liquor, and it will throw him into a profuse perspiration, and he will soon be as well as ever. This should be done as soon as you ascertain his condition. The cure is said to be effective.

AFTER planting do not think the labor done. Success depends on thorough cultivation.

WATCH the currants for the first appearance of the worm, and dust them well with white hellebore.

THE most that can be done for small fruits the remainder of this month, is to stir the soil, keep down the weeds, and pick the blossoms from newly planted strawberry plants.

AN English farmer, by picking over his seed wheat with the utmost care, and planting a grain in a place, at intervals of a foot each way, produced 162 bushels to the acre.

SPECIAL NOTICES.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Compiaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To the three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relaxe the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Compaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secret ons, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as that time begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, so that no one need be deterred from personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Wednesday, and No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1 50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:151-d&F

We Will publish the report of the business done at the Mayor's office during the present month in to-morrows GAZETTE.

Three persons were before Mayor Drum yesterday, charged with tre-passing on the Park grounds. They were compelled to pay the usual fine and discharged.

Sent to the Farm.—Mary Gannon, an insane woman residing on Diamond alley, was sent to the City Farm yesterday at the instance of her husband.

For Rent.—Vine Cliff Cottage, late residence of Dr. Wilson, dec'd, Mt. Washington. Inquire of Hall Patterson, No. 71 Grant street.

Assault and Battery.—John Kelly made information against Michael Scuffle, before Justice Ammon, of East Birmingham, yesterday, charging him with assault and battery. He alleges that the accused struck him with his fist without provocation. A warrant was issued for Scuffle.

Disorderly.—Bridget Pierce made information yesterday before Justice Ammon, of East Birmingham, charging H. Shadrick with disorderly conduct. She alleges that he came to her residence drunk and acted in a disorderly manner. A warrant was issued for Shadrick.

Mr. Tetedoux's Concert.—Tickets for Mr. Tetedoux's concert, which is to take place at Liberty Hall on Thursday next, June 3d, will be for sale to-morrow at the drug store of Mr. McClarren, in East Liberty, and at Mr. Mellor's music store, in Pittsburgh. The programme of the evening will also be found at both places.

Wanted—Situation.—By a young man as book-keeper or assistant book-keeper, good penman, and has had several years experience in store and bank. Can furnish good reference and security, if required. Address box A GAZETTE office, or call at the GAZETTE Counting Room.

Trains Delayed.—The trains on the Western Pennsylvania Railroad, due at the Allegheny depot yesterday afternoon, were delayed in consequence of the storm. A bridge spanning a small stream twelve miles west of Freeport, was carried away by the flood, preventing the passage of trains.

To be Sent to Dixmont.—An insane man was arrested on Ohio street, Allegheny, with no clothing upon him but his pantaloons. At the lockup he was identified as —— McIntyre and his friends were notified of his whereabouts. They will have him removed to Dixmont Hospital to-day.

Fell in a Vault.—Officer Maloney of the Mayor's police, while on his way to the Captain's office to report for duty, when passing along Smithfield street near Second avenue, stepped on the coveriug of a coal vault, which, not having been properly adlusted, gave way and precipitated him into the vault. He was slightly but not seriously injured.

Surety of the Peace.—Margaret Jones made information before Justice Ammon, of East Birmingham, yesterday, against her husband, W. J. Jones, for surety of the peace. She alleges that he attempted to kill her with a butcher's knife. He was arrested, and after a hearing committed to jail in default of bail for his appearance at court.

A New Republican Paper.—We are informed that a number of leading Republicans of the Twenty-First District contemplate establishing in Greensburg and issuing about the middle of July next, a paper to further the interests of the great Union cause. From our knowledge of some of the parties engaged in the enterprise we predict a grand future for the new organ.

Heavy Business.—Eleven informations were made before the Mayor yesterday, charging as many different persons with selling liquor on Sunday. The proceedings are to recover the penalty of $50, and the names were issued. This, however, was only a small portion of the business, as there were nineteen informations made charging that many persons with disorderly conduct. Warrants were issued on all the disorderly cases.

Arrangements have been made with the Pittsburgh and Erie Railroad to return delegates attending the State Medical Society, which meets at Erie, on Wednesday, June 9th, free of charge, as far as New Castle.

The Pittsburgh, Fort Wayne and Chicago Railroad having authority from New Castle to Pittsburgh, refused to enter into any arrangment with the Committee appointed by the Society to attend to the matter.

Accident in a Coal Pit.

A serious accident occurred at Shaner's Station, on the Connellsville Railroad, yesterday afternoon, by which Patrick Flaherty received injuries which may lame him for life. He is a coal miner and was at work in a coal pit at that place, when a heavy mass of slate and rock fell from the roof of the pit. He heard the noise just before the fall, and attempted to get out of the pit, when he stumbled and fell and an immense weight of rock and slate fell upon his legs fracturing and crushing them both above the knee. He was placed on the express train which passed the place a short time after the occurrence and brought to this city and taken to his residence in the Fifth ward.

David Kirk, Esq.

We publish elsewhere, this morning, a call on this gentleman to allow his name to go before the Republican Legislative Convention, to assemble this day, as a candidate for the Assembly. The names appended to the call comprise a large number of our most extensive and respectable business men and firms, manufacturers, merchants and others, including mosst of the representative dealers in Oil. We regard this not as a movement of any faction in or fraction of a party, but the expression of a highly intelligent and worthy class of business men, of a desire to have in our county delegation at least one representative especially qualified by his large experience and extensive knowledge of the great business interests of the community, and by his ready pen and fluent speech, capable of protecting and advancing these interests. Mr. Kirk, if nominated and elected, will prove by his energy, zeal and integrity that the partiality of his friends is not misplaced.

CITY COUNCILS.

Regular Meeting.

A regular monthly meeting of City Councils was held yesterday, Monday, in the Council Chambers, City Building.

Select Council.

Caunoil was called to order at two o'clock by the Clerk, when the following members answered to their names:

Messrs. Ahl, Ahlborn, Armstrong, Burgwin, Coffin, Craig, Gallaher, Gross, Hailman, Hartman, Holmes, Kane, Kehew, Kirk, Laufman, Littell, Morrow, Murdoch, Murray, McClelland, McMahon, Ogden, Phillips, Rafferty, Schmidt, Scully, Shipton, Torrens, Wainwright, S. J., Wainwright, Z., Watson, White, Wilson, Zern.

On motion, Mr. Burgwin was called to the Chair.

The minutes of the preceding meeting were read, and Mr. Ahlborn moved to correct the minutes so far as they referred to an ordinance relative to the paving of Irwin alley.

The motion was adopted and the minutes approved as amended.

The clerk then read a communication from A. L Pearson, Secretary of the Board of Health, asking Councils to elect members to fill the three existing vacancies in the Board. The communication was received.

Mr. Morrow moved that Council proceed to elect persons to fill the vacancies.

Mr. Gallaher amended by moving that the Clerk be directed to request C. C. to meet with S. C. in joint session at four o'clock P. M., to elect three members to the Board of Health. Adopted.

The Chair read the report of the Committee on Wooden Buildings. They report favorably to the petition of Anderson, Wood & Co., for the privilege of erecting a wooden building, aud adversely to all other petitions of that nature.

The report was received and ordered to be filed.

Mr. Kirk moved that the City Solicitor be instructed to draw up an ordinance providing for the election of an Inspector of Buildings. Adopted. In C. C. laid on the table.

REPORT OF A SPECIAL COMMITTEE.

On motion, Mr. Gallaher was permitted to present the report of the special Committee relative to the purchase of turnpikes and plank roads inside of the city limits.

The Special Committee appointed to confer with the several Turnpike and Plank Road Companies, would respectfully report that at an interview had with Mr. Scully, the Sequestrator of the Braddocks Field Plank Road Company, stated that there were judgments against the company which would have to be paid before the Sequestrator could transfer the road to the city, nor could he promise that any of this amount would be expended in improving the remainder of the road. Yet if the consent of the Court could be obtained, he was willing to transfer the road to the city without cost, provided it would immediately widen and grade the road at the expense of the property owners along the line of the road. Your Committee would suggest the acceptance of the latter proposition, and that as soon as proper legislation can be secured or the consent of the property owners along the line of the road be obtained, the road be opened and graded.

That your Committee met with Hon. Thos. M. Howe, Isaac Jones and William Semple, Committee from the Farmers' and Mechanics' Turnpike Company, who, at the request of the Chairman of your Committee, (Mr. Gallaher,) submitted the accompanying statement, showing the condition of the Road at this time:

Following is a recapitulation of the statement:

Amount expended for construction	$80,123.62
Value of Franchises, &c	40,000.00
	$120 323.62

They decline to enter into any agreement for the sale of the road to the city at any sum less than $60,000, the amount awarded by the Commission at the assessment, and should the city agree to purchase the road at this price, they will insist on its also assuming the part of the road company in the agreement between it and the Pittsburgh and East Liberty Passenger Railway Company, in which the road company, in consideration of the sum of $900 per annum, paid by the railway company, agree to keep the road in order, and they also desire your Committee to report that they were in no way anxious to dispose of the road to the city, believing that while remaining in their hands the road, while paying them a dividend, would be kept in better condition than by the city. Your committee would, therefore, suggest that no action be taken in the matter and the road allowed to remain in the hands of the present company.

On motion of Mr. Craig the report was received.

Mr. Bhillips moved that the Committee be continued and ordered to close with the Braddock's Field Plank Road Company. Adopted,

Mr. Hailman moved that the Committee be instructed to purchase the Farmers' and Mechanics' Turnpike.

Mr. Jones moved that the motion of Mr. Hailman be laid on the table. Adopted.

Mr. Scully moved that that portion of the report be referred to the City Solicitor, to report as to the liability of the city to purchase the road at the assessed valuation.

Mr. Gallaher moved to lay the motion of Mr. Scully on the table. The yeas and nays were called, after which Mr. Gallaher withdrew his motion.

The question then recurring on the motion of Mr. Scully to refer the report to the City Solicitor, it was adopted.

Mr. Phillips presented an ordinance, providing for the issuing of bonds, under the late act of Assembly, providing for the issuing of bonds to pay the matured and maturing indebtedess of the city.

The ordinance was read three times and passed under a suspension of the rules. In C. C. laid over for the present, and the Controller instructed to report to Councils the amount of money in the Treasury.

REPORT OF THE MARKET COMMITTEE.

Mr. McEwen, Chairman of the Market Committee, submitted the following report:

GENTLEMEN—In accordance with a resolution of Councils, directing this Committee to make a selection for a New Market House, for the upper and outer wards wards of this city, beg leave to report that they have personally gone over the district for whose benefit the selection is proposed to be made, and have examined all the locations that were presumed to be adapted to the purpose; and after having fully, and as we believe, fairly canvassed the advantages and disadvantages of each location, have resolved to recommend the purchase of the location known as the "Lyon Property," fronting two hundred and forty-seven feet and five inches on Pennsylvania avenue, and extending back along Miltenberger street. This property is composed of three tiers of lots of ten lots each. The first tier fronting on Pennsylvania avenue and extending back one hundred and twenty feet to an alley; and the second tier extending from said alley to Forbes street; the two tiers making a lot over two hundred and forty feet square. The front tier will cost thirty-five thousand dollars and the second thirty thousond dollars.

Your Committee would urge the purchase of the tier of lots fronting on Pennsylvania avenue, for the immediate use of a Market House, and would recommend the purchase of the second tier fronting on Forbes street for further use.

The purchase under agreement with the parties in interest, will be made on a credit of seven years, with interest.

The report was read and adopted, and a resolution accompanying it was read three times and passed.

Mr. Little presented the report of the Select Committee, relative to the change in the Water and Park Bill by the Legislature. No action.

Mr. Burgwin presented several petitions asking that the Connelsville Railroad Company be allowed to extend their track through the city, to connect with the western roads. Read and referred to the Railroad Committee.

Mr. Gross, a petition for the opening of Mill street, accompanied by an ordinance providing for the same.

Petition received, and the ordinance read three times and passed.

Mr. Ahl presented a communication from Hussey, Wells & Co., relative to the construction of an iron-clad building, accompanying which was an ordinance granting the privilege. Read three times and passed.

Mr. Armstrong, a petition for opening a street on the bank of the Allegheny river. Referred to the Survey Committee.

Mr. Watson, a petition to survey Miner street. Referred to the Survey Committee.

Mr. Morrow presented the report of the Committee on Gas Lightning. Read and accepted.

Mr. Rafferty, a petition from Levi Israel asking for compensation in consequence of damages received in the construction of Fifth avenue sewer.

Referred to the Finance Committee.

Mr. White, an ordinance for grading and paving Apple alley. Read three times and passed.

Mr. Phillips called up the report of the special committee appointed io investigate the matter of the alleged changes in the Water and Park bill by the Legislature, in which the committee recommend that the bill be received and Councils approve it, and moved the adoption of the report, and of a resolution instructing the Governor to sign the bill.

Mr. McClelland moved to lay upon the table, but afterwards withdrew his motion.

After considerable discussion, Mr. Ahlborn moved to adjourn. Lost.

The question then recurred on the motion of Mr. Phillips to adopt the report and recommend the Governor to sign the bill. The yeas and nays were called for, when the motion was adopted by a vote of 21 yeas to 16 nays, and Messrs. Holmes and Gross appointed to notify the Governor of the wishes of Councils.

Mr. Kirk presented a resolution returning the thanks of Council to Gov. Geary for withholding his signature from the water bill until he had an express from Councils on the subject. Adopted.

Mr. Armstrong offered a resolution censuring ex-Senator Errett for having the water bill changed, and while it was pending Council adjourned.

Common Council.

President Tomlinson presiding.

Present—Messrs. Albeitz, Anderson, Barr, Barton, Batchelor, Bell, Berger, Black, Boggs, Booth, Bulger, Carroll, Case, Caskey, Chislett, Daub, Dunseath, Gerner, Gildenfenney, Houston, Jahn, Jones, McCandless, McCarthy, McClarren, McCleane, McKelvy, McMasters, Meyer, Moore, Moorhead, Morgan, Morton, Nixon, Palmer, Pearson, Penney, Potts, Rebman, Reed, Rook, Rosewell, Sims, Scott, Verner, Vick, Waughter, Weldon, Welsh, Wilson and President Tomlinson.

Minutes read and approved.

RESOLUTIONS, PETITIONS, &C.

Mr. Sims offered a resolution relative to the money in the hands of the Treasurer of the Neptune Fire Company. Referred to Committee on Fire Engines and Hose.

Mr. Weldon, a petition for paving Penn street from Third to Fifth. Referred to Committee on Streets.

BUILDING INSPECTOR.

Mr. McCleane, a resolution requesting Ordinance Committee to prepare an ordinance for the appointment of an Inspector of Buildings.

Referred to Special Committee of three, in conjunction with City Solicitor and Messrs. McClaren and Houston, appointed in C. C.

Mr. Weldon, a resolution allowing Messrs. Walter) Slocum & Co, to erect a tramway across Second avenue, opposite their works.

Referred to Street Committee.

Mr. Weldon, a petition for opening Dinwiddie street, from the north end of Liberty street to the Pennsylvania railroad.

Referred to Street Committee.

Mr. Weldon, an ordinance granting switch for tramway across Second avenue, Sixth ward.

Referred to Street Committee.

MILTENBERGER STREET SEWER.

Mr. Case, from the Committee on Appeals, presented a report from the Committee. The report was in reference to the Miltenberger street sewer, and stated that it was properly constructed. The following resolution was accordingly reported:

Resolved That the City Treasurer be instructed to proceed with the collection of the Miltenberger street sewer assessments. Report accepted and resolution adopted.

Mr. Rebman, a petition for a gas lamp at Hazlett street and Smallman's alley.

Referred to Gas Committee.

Mr. McCandless, a resolution requesting the Committee on Streets to examine into the practicability of changing the grade of Wylie street extension at Arthurs street to make the two correspond. Referred to Committee on Streets.

Mr. McKelvy presented a communication from William McCully & Co., relative to the erection of an iron-clad building attached to their works. Read and accepted.

The communication was accompanied by an ordinance granting the firm named the privilege of erecting an iron-clad building, as requested.

Considerable discussion ensued on the measure, after which the communication and ordinance were referred to Committee on Wooden Buildings.

Mr. Welsh, resolution for the erection gas lamp at Smallman street and Spruce alley. Referred to Committee on Gas.

Mr. Waughter, a petition for water pipe on Mahon street. Referred to the Committee on Water.

Mr. Barton, a remonstrance against the widening of Shady Lane, Twentieth ward, to a width of sixty feet. Referred to the Committee on Surveys.

PETITIONS FOR RIGHT OF WAY.

Mr. Penney, five petitions for granting the Connellsville Railroad the facilities for the right of way through the city under the Direction of Councils. Referred to the Committee on Railroads.

NEW ORDINANCES CONSIDERED.

Mr. Weidon presented the following report of the Street Committee:

Gentlemen your Committee on Streets would report the following ordinances:

One for grading Twenty-Seventh street.
One for opening Hatfield street.
Grading and paving Willow street.
Grading and paving Spring alley.
Opening Valley Street.
Grading and Paving Pleasant alley.
Grading and paving Twenty-Ninth street.
Grading and paving Forbes street from Chestnut to Magee.
One for grading and paving Snowden Alley.
One for increasing salary of Street Commissioner of Thirty-Third District from $1,000 to $1,200.

They would also report in regard to resolution instructing them to inquire into the condition of so much of Penn street traversed by the Citizens Passenger Railway Company, that the work is progressing satisfactorily under the supervision of Street Commissioner. The report was read and excepted.

The ordinances relative to Twenty-ninth street, Hatfield street and Twenty-seventh street were read three times and passed finally under a suspension of the rules.

The ordinance relative to the increase in the salary of the Street Commissioner, Third District, was referred to the City Solicitor to report upon its legality.

The remaining ordinances were laid over under the rules.

SURVEY PLANS.

Mr. Chislett, from the Survey Committee, presented plans for the opening of Hazlett street. Grade plans Sixteenth Ward. Plan of Roup Farm, Twenty-second Ward.

The report was accepted and the plans approved.

Mr. Case presented an ordinance requiring the owners of all vacant lots (except those in the rural districts) to enclose their propety with a close board fence. Referred to Committee on Streets.

SPICY DEVELOPMENTS PROMISED.

Mr. McCarthy asked for a report from the Committee on Retrenchment and Reform. Councils, he thought, had waited long enough for the report, and if the Committee had nothing to say now, a new one should be appointed to look after *them*.

Mr. Morgan said he was Chairman of the Committee, and could report gratifying progress. The Committee would report in a short time, when Councils might expect some rich developments.

VACANCIES IN BOARD OF HEALTH.

The Chairman read a communication from the Board of Health in reference to the election of three new members of the Board to fill the vacancies caused by the resignations of Messrs. Fitzimmons and McKee, and by the decease of Joseph Kaye.

The communication was accepted, and on motion, Select Council was notified that Common Council was ready to meet in joint session to proceed with the election.

At the adjournment of the joint session, Common Council proceeded with regular business.

Mr. Boggs presented a petition for the construction of a sewer on Third avenue, between Market and Wood streets.

Referred to the Street Committee.

QUORUM DIFFICULTIES.

Business from Select Council was then taken up. During its consideration a number of members left the room, whereupon Mr. Rook demanded a call of the house to ascertain if a quorum was present.

At the call of the roll thirty-three faithful members answered to their names, and C. C. was about adjourning, thirty-four being necessary for a quorum, when one of the delinquents made his appearance.

Mr. McCandless—Mr. President: I think the members who leave the house while we are transacting business, should be severely censured. And I hope their action will be published, that their constituents may know how they are represented. This matter is properly a part of the proceedings of Councils, and should be spread before the public.

Mr. Morgan—I think, Mr. President, that all members leaving the house without permission of the Chair, should be fined, as prescribed in our rules.

The Chairman—The only method of having the matter made public is to request the reporters to incorporate it in their minutes.

Mr. McCandless—Well, then, Mr. President, I move that the reporters be requested to make a note of this affair in their account of our proceedings.

This motion seemed to meet with hearty favor, and was unanimously adopted.

The call of the roll previous to this discussion showed the following members to be present:

Messrs. Albeitz, Anderson, Barr, Barton, Bell, Berger, Black, Booth, Caskey, Gildenfenney, Houston, Hutchison, Jahn, Jones, McCandless, McCarthy, McClaren, Meyer, Moore, Moorhead, Morgan, Pearson, Penney, Potts, Rebman, Rook, Sims, Scott, Verner, Weldon, Welsh, Wilson, and President Tomlinson.

Matters were thus satisfactorily settled and business proceeded for a few minutes harmoniously, when suddenly another member discovered a deficiency in the attendance and demanded another call of the roll. Thirty-four members answered, the member subsided, and busines went on.

NON-CONCURRENCES.

The resolution relative to changing of the Rules governing Councils, as adopted in Select Council at a former meeting, was presented and laid over.

The resolution offered in Common Council, May 21st, and adopted, amending Rule 30th so as to require the Clerk to notify members of the object of Special meetings in the written notification of the meeting. In S. C., it was referred to a Special Committee on Rules. C. C. non-concurred and adhered to former action.

NEW BUSINESS.

Mr. Houston presented an ordinance relating to the running at large of dogs in the city, and imposing a fine of $2 upon all owners of animals taken up by the authorities. After some discussion the ordinance was amended, making the fine from two to five dollars, and as amended read three times and passed.

Mr. McCleane offered a resolution instructing the City Controller to communicate to Councils at their next meeting in regard to special funds in the City Treasury for the payment and compromise of City Railroad Bonds and their interest. Read three times and passed.

Also a resolution of inquiry in relation to the cause and authority for the disbandment of the Neptune Fire Company. Referred to the Committee on Engines and Hose.

On motion adjourned.

Joint Session.

Councils met in joint session.

Mr. Burgwin, President *pro tem.* of Select Council, presided, and stated the object of the meeting to be the election of three members to fill vacancies in the Board of Health.

Nominations being in order, Messrs, David Holmes, A. W. Barr, Frank P. Case, —— Hanna, John M. King, T. W. Welsh, —— Woods, C. A. Kehew, Andrew Miller, D. C. Carroll, Samuel McKee and —— Gardiner were named.

Mr. Craves moved that the candidate receiving the highest number of votes be entitled to the long term. Carried.

On the first ballot Mr. Halmus and Mr. Case were elected. Mr. Halmus receiving the highest number of votes was declared entitled to the long term.

Of the remaining candidates Messrs. Kehew and Welsh received the highest number of votes, and on motion the actors were stricken off the list. The second ballot Mr. Welsh was elected.

BOARD MEASURE ELECTED.

Mr. Craig moved that Mr. Fawcett be elected Board Measure of the Fourteehth ward, the regularly elected official having never taken out his commission. Carried. The joint session then adjourned.

The Blood.

The *blood* is the *life* of the body. Disease is the antagonist of life. Every attack of disease is an attack upon the blood.

From the blood is secreted the urine. Every deviation from the standard quality of the blood is represented in the changed condition of the urine which is secreted from it. And as is the change in the blood, so will be the change in the urine at the time. To know the condition of the urine, then, is to know the condition of the blood and the kind of deviation or disease.

These are practical *facts* of medical science. Propositions which have been clearly demonstrated by the labors of illustrious medical authors, Bird, Beale, Prout, Simon, &c., and which are daily being satisfied by the examination of numerous specimens of urine sent to our office, No. 132 Grant street, Pittsburgh, representing every class and variety of disease.

Those who would obtain a knowledge of this important branch of the medical art, having a knowledge of the appearance and standard properties and qualities of the urine, as also the general pathological conditions in disease, can soon learn the chemical analysis and microscopic operations necessary to detect the precise nature of almost every malady with a positiveness amounting to more nearly mathematical precision than is possible in any other way.

These investigations and the prescribing of medicines in accordance with these facts has been the practical business of our life. So extensive has been our experience in these examinations during the last twenty years that scarcely a town or township within fifty miles of Pittsburgh, but numbers a dozen or more patrons who have thus *sent* to us and obtained relief.

And knowing that hundreds of others are still lingering out a miserable existence without medical aid, some because they have passed through the "old ordeal" without relief, and some perhaps because they may not know where to apply to, we feel justified in making these *facts* public, satisfied that a number will seize upon these plain truths and be fully rewarded by a *cure*.

Our remedies in all chronic diseases are such as remove the morbid matters from the blood, and tone up the system.

To build up! not break down. To stimulate the organic system to a healthy action, and strengthen the body to its full vigor of animal life, are the principles which will lead to success, if success is at all to be had.

L. OLDSHUE, M. D.,

Philip Phillips.

To-morrow evening this celebrated sweet singer will give one of his inimitable entertainments in the First Methodist Church (Rev. Alexander Clarke's), Fifth avenue. He is already so well known to our readers that the mere announcement of the performance will doubtless, as heretofore, be sufficient to attract a crowded house. We can imagine no more enjoyable method of spending an evening than listening to the exquisite songs of the "Singing Pilgrim," which seem to sing themselves into the affections and heart of every listener. Mr. Phillips, aside from his finished vocal culture, exercises consummate tact and judgment in his selections, which add so greatly to the attractions of his entertainments. Since his last visit to Pittsburgh he has prepared a new programme, and those who attend the concert to-morrow evening may expect a fresh and varied entertainment.

The Munson Lightning Rod.

On the 29th of April, Jacob Kurtz, a son of Henry Kurtz, was struck by lightning, near Springville, Lancaster county, from the effects of which he died almost instantly. At the time of the occurrence he was between his father and another brother in the barn. The straw on which his brother was standing was set on fire from the same discharge. No building was ever damaged by lightning which was protected by the Munson Lightning Rod, manufactured by Lockhart & Co., No. 234 Penn street, Pittsburgh.

It is Seldom that we use the columns of this paper to "puff" or notice the "thousand and one" artieles known as "Patent Medicines." We, however, vary from our rule in the present case, that we may call attention to the article known as "S. T.—1860—X., Plantation Bitters." We desire it understood that we do so without any solicitation or promise of benefit from the proprietor or other interested parties, We simply do it as an act of duty towards those who are laboring under physical disabilities, weakness, and the various complaints arising from impurities of the blood. Having used the Bitters at the instigation of a friend, (and. we confess, with some misgivings at the out set.) we found them a most valuable medical compound, and to our great satisfaction, accomplished the object for which they were used.
